Special Notices and Terms of Business.

Carriage and Discount Terms.—We do not pay carriage on Plant Orders, but on all prepaid orders amounting to 20s. or over we allow discount of 1s. in the £, which may either be deducted when remitting or will be credited against the cost of carriage. Orders for credit account if over 40s. in value are subject to a discount of 1s. in the £, if paid within 14 days of date of invoice. In order to avoid delay new customers are requested to send cash with order. The Railway Companies still require that the carriage on all passenger train traffic be prepaid; we shall in such cases pay carriage and add the Railway charge to our invoice unless covered by the Discount as mentioned above.

Terms of Credit.—Our books are made up half-yearly, when all accounts are due net. Interest at the rate of 5 % per annum will be charged on overdue accounts.

Remittances.—Money Orders and Postal Orders to be made payable at Bedford Street Post Office; these and all Cheques should be crossed "Westminster Bank, Ltd."

Packing.—Boxes and packing are charged at cost price except in the case of prepaid orders amounting to 40s. and over when no charge will be made. When charged for, the amount will be credited on safe receipt if they are returned to us carriage paid within a fortnight, *provided they have the sender's name on the address label for identification and that an advice is sent us by post stating date of dispatch and name of Railway.*

Catalogues.—Our Catalogue of Flower and Vegetable Seeds, also Bulbs for Spring Planting is published 1st of January, Hardy Plant Catalogue in February, List of Autumn-flowering Bulbs (Crocus species, Colchicums, etc.) in July, Daffodil and General Bulb Catalogues in August. We are always pleased to forward any of these Catalogues, free of charge, to friends of our Customers on receipt of a line requesting us to do so.

Gardeners.—We keep a special Register of Gardeners in want of situations, and shall be pleased to put such in communication with any of our Customers requiring Head Gardeners.

Notices to our Overseas Correspondents.

Prepayment necessary.—Owing to the expense incurred in collecting accounts abroad we beg that Customers will kindly enclose with their Orders a remittance, a draft, or an "order to pay" on a London Bank or Agent; the remittance should be sufficient to cover cost of postage or carriage when the freight is required to be paid in advance.

Carriage.—No allowance for Carriage can be made in the case of Overseas Orders; the extra attention necessary precludes any kind of allowance in this respect.

Packing.—A moderate charge will be made where special materials have to be used, such as Sphagnum Moss, Oil-Silk, etc., and where any special packing necessitates a great deal of labour (as in the case of some Plant Orders), when out-of-pocket expenses only will be charged.

Shipping, etc.—In Shipping Bulbs and Plants to Australia, New Zealand, America, India, and the Cape, we exercise great care in selecting, preparing, and properly packing the same. Still there are so many contingencies that we cannot, in any way, hold ourselves responsible for the condition in which Plants or Bulbs reach their destination. *Our Customers will confer a favour if they report, on arrival, the condition of the goods.* Our experience in successfully preparing and shipping Seeds, Bulbs and Plants to all parts of the world extends over a very long period.

- LINUM narbonense Six Hills Variety**, a great improvement on the type, forming a rounded bush covered *throughout summer* with large brilliant sky-blue flowers, 18 in.....per doz. 16/- each. 1/6

Aster, New Dwarf Hybrids.

It is our pleasure to introduce a race of New Dwarf Hybrid Asters raised by Mr. H. V. Vokes of Southampton. We feel that these will fill a long-felt want in providing a race of dwarf compact very free-flowering plants, blooming at a season when such are scarce. They are similar in habit to the **Novi-Belgii Section** except for their height, and produce innumerable flowering shoots covering the plant in blossom for a considerable time. They are especially valuable for edging or for grouping in the front of Borders, and are also charming in the **Rock Garden**; where they will provide a display of bloom in September and October equal to that given by the **Aubrietia** in Spring. The plants are of strong and vigorous growth and of the easiest cultivation. We hope in the future to add to the following preliminary list.

Countess of Dudley , charming clear pink flowers with yellow eye, of bushy habit and free-flowering, <i>October</i> , 9 in.....per doz.	27/6 2/6
Lady Henry Maddox , clear pale pink flowers, very free-flowering and of dwarf compact habit, <i>Sept.-Oct.</i> , 9 in.....per doz.	27/6 2/6
Marjorie , of compact habit, bearing large flowers of a bright rose-pink, the latest to bloom, <i>October</i> , 9 in.....per doz.	21/- 2/-
Nancy , of dwarf very bushy habit and very free-flowering, the plants being covered with pale flesh-pink flowers towards the end of <i>September</i> and early <i>October</i> , 9 in.....per doz.	21/- 2/-
Ronald , a dwarf bush covered with flowers of a pleasing bright shade of lilac-pink with rose-pink buds, very showy, <i>early October</i> , 12 in.....per doz.	21/- 2/-
Victor , the dwarfest of all and very pretty. The flowers are of good size and of a beautiful clear pale lavender-blue, a charming rock-plant, flowering <i>mid-Sept.</i> , 6 in.per doz.	21/- 2/-
BLETIA hyacinthina , a charming Chinese Orchid, with pretty ribbed foliage and graceful racemes of deep rose-pink flowers; it thrives in the bog garden and sheltered shady situations, plant in a peaty compost.....per doz.	18/6 1/9
CAMPANULA persicifolia, Snow King , a white form of <i>Telham Beauty</i> , producing very large cup-shaped flowers, 2½ in. across, of great substance and of the purest white, borne on stout stems, <i>June</i> , 3 ft.....	5/-

DELPHINIUM—Beautiful New Varieties of Recent Introduction.

Lord Derby , producing very large semi-double flowers, gentian-blue overlaid rich rosy mauve with small white eye; an improvement on The Alake , 4 ft., A.M. R.H.S.....per doz.	36/- 3/6
Millicent Blackmore , a very fine Delphinium producing huge well-built spikes of semi-double Cambridge-blue flowers, the inner petals being a glistening soft rosy mauve, black eye, 5½ ft., A.M. R.H.S.....	5/6
Mrs. A. J. Watson , long spikes well clothed with very large flowers, outer petals sky-blue overlaid with mauve inner petals, 7 ft., A.M. R.H.S.....	3/6
Mrs. Shirley , very beautiful pale self-mauve flowers borne on a compact and shapely spike, 5 ft., A.M. R.H.S.....	3/6
Purple Splendour , very long and well-built spikes of gentian-blue flowers heavily overlaid purple, <i>extra fine</i> , 5 ft.....	5/6
Queen Mauve , beautiful pure self-mauve double flowers, borne on long graceful spikes, late-flowering, 5 ft.....per doz.	36/- 3/6
René Guilbert , large semi-double flowers well set on a long spike, colour rich ultramarine-blue slightly shaded purple, 5½ ft.....	5/-

BARR'S BRITISH GROWN

Hardy Border Perennials, Alpines and Rock Plants.

F.C.C. R.H.S. = First-Class Certificate, Royal Horticultural Society.

A.M. R.H.S. = Award of Merit, Royal Horticultural Society.

Not less than 6 plants of one variety supplied at the dozen rate.

CLUMPS (or Extra Large Plants) can in many cases be supplied at higher prices,
and we shall be pleased to quote for these if desired.

	per doz. each.	
ACÆNA (<i>New Zealand Bur</i>), creeping prostrate evergreen rock plants, with delicately tinted small foliage, valuable for clothing bare ground beneath trees, and for crevices of stone paving, steps, etc.		
Buchanani, producing a beautiful glaucous green carpet of foliage, 2 in.....	8/-	9d.
inermis, foliage of a beautiful persistent bronzy hue, 2 in.....	8/-	9d.
microphylla, small bronze foliage covered in summer and autumn with spiny crimson balls, 1 in.....	8/-	9d.
ACANTHOLIMON glumaceum (<i>Prickly Thrift</i>), flowers bright rose, <i>June-July</i> , 3 in. ...	8/-	9d.
venustum, see <i>New and Noteworthy Plants</i> , page 1.....	—	2/6
ACANTHUS Candelabrum, the <i>Acanthus Leaf of Architecture</i> , a handsome foliage-plant bearing stately spikes of pink flowers with green and white bracts, <i>July-Aug.</i> , 4 ft.....	10/6	1/-
ACHILLEA (<i>Milfoil</i> or <i>Yarrow</i>), showy border and rock plants.		
ageratifolia, producing snow-white daisy-like flowers throughout summer, with silvery grey foliage, 6 in.....	8/-	9d.
argentea (<i>Snowy Alpine Yarrow</i>), pretty rosettes of silvery grey foliage, <i>July</i> , 4 in.	8/-	9d.
filipendulina (<i>syn. Eupatorium</i>), bearing handsome large flat golden flower-heads, <i>July-Aug.</i> , 5 ft. A fine plant for the back of herbaceous borders.....	8/-	9d.
Millefolium Cerise Queen, producing flat heads of bright cherry-red flowers, <i>June-July</i> , 3 ft. A fine border plant.....	8/-	9d.
Parmica fl. pl. The Pearl, pure white fully double flowers, valuable for cutting, a showy border plant, <i>July-Aug.</i> , 3 ft.....	8/-	9d.
rupestris, a charming rock plant with branched heads of white flowers, <i>June</i> , 4 in.....	8/-	9d.
tomentosa, producing from a dense green carpet of foliage dainty spikes of golden flower-heads; a fine rock plant, <i>June-July</i> , 4 in.....	8/-	9d.
ACONITUM (<i>Monkshood</i>), effective in flower borders either of shady or sunny aspect.		
Fischeri, flowers clear blue, a lovely autumn-flowering species, <i>Sept.</i> , 3-4 ft.....	8/-	9d.
Napellus bicolor, blue and white flowers, very showy <i>July-Aug.</i> , 5 ft.....	8/-	9d.
„ Sparks' Variety, glistening violet-blue, handsome, <i>July-Aug.</i> , 5 ft.....	8/-	9d.
volubile, producing fine spikes of clear blue flowers, <i>Aug.-Sept.</i> , 8 ft.....	10/6	1/-
Wilsonii, violet-blue, showy, an excellent plant for autumn effect, <i>Sept.</i> , 5½ ft.....	10/6	1/-
ADONIS (<i>Flower of the Gods</i>), showy golden-yellow flowers arising from a tuft of graceful soft green foliage during early spring; excellent for sunny or semi-shady situations.		
amurensis, producing large single golden-yellow flowers, 9 in.....	16/-	1/6
„ fl. pl., double golden-yellow flowers with a bright green central rosette, showy, 6 in.; later blooming than the above.....	27/6	2/6
vernalis, bearing golden star-shaped flowers, 6 in.....	10/6	1/-
ÆTHIONEMA grandiflorum, large heads of beautiful soft pink flowers, <i>May</i> , 10 in.	16/-	1/6
„ iberideum, producing charming heads of white flowers and glaucous foliage, a splendid wall plant, <i>April</i> , 3 in.....	10/6	1/-
„ pulchellum (<i>Persian Candytuft</i>), flowers soft pink, <i>May-June</i> , 6 in.....	10/6	1/-
„ amœnum Warley Rose, a charming hybrid of dwarf compact habit, covered in <i>May</i> with heads of rose-pink flowers; one of the best spring-flowering rock-plants, 6 in.....	10/6	1/-
AGAPANTHUS (<i>African Lily</i>). Valuable for growing in tubs, either for greenhouse or summer decoration in porches, on verandahs, terrace walks, lawns, etc.; also very effective planted out by the waterside. In winter the plants should either be covered with light litter or long manure, or lifted in October and stored in dry soil, replanting them in March. The Agapanthus is a gross feeder, and likes a richly manured soil and plenty of moisture while in growth. Established plants produce stout stems, each bearing a very large number of flowers from <i>July to September</i> .		
umbellatus, umbels of handsome trumpet-shaped blue flowers, 3 ft.....	10/6	1/-
„ <i>Strong Clumps</i>	27/6	2/6
„ grandiflorus albus, handsome umbels of large white flowers, 3½ ft.....	7/6	8d.
„ <i>Strong Clumps</i>	10/6	1/-

- per doz. each.
- AJUGA reptans atro-purpurea** (*Bugle Flower*), a handsome permanent carpeting plant bearing brilliant blue flowers and rich purple-bronze foliage, *June-July*, 9 in..... 8/- 9d.
- ALYSSUM** (*Rock Madwort*), producing sheets of flowers, very suitable for sunny borders, rock-gardens, walls, etc.
- saxatile citrinum**, beautiful masses of self lemon-yellow flowers, *May-June*, 6 in. 8/- 9d.
- " **compactum** (*Gold Dust*), sheets of golden flowers, *May-June*, 6 in..... 5/6 6d.
- " **fl. pl.**, a mass of miniature double golden flowers, *May-June*, 6 in..... 10/6 1/-
- spinosum roseum**, of dense bushy habit, covered with pinkish flowers, *June*, 6 in. 10/6 1/-

ANEMONE OPAL.

ANCHUSA (*Alkanet*). The following rank among our best blue summer-flowering border plants; they are also excellent Bee plants.

- italica Dropmore**, Gentian-blue, *June-Aug.*, A.M. R.H.S., 5 ft..... 8/- 9d.
- " **Opal**, beautiful pale blue flowers, *June-Aug.*, 5 ft..... 8/- 9d.
- " **Pride of Dover**, lovely pale clear blue flowers of good size, produced in large pyramidal heads, *June-Aug.*, 5 ft..... 8/- 9d.
- myosotidiflora**, producing sprays of dainty blue flowers, resembling "Forget-me-nots," *April-June*, 1½ ft..... 8/- 9d.

ANDROSACE (*Rock Jasmine*), beautiful High Alpines, thriving in rock fissures, sunny crevices, or amongst stones.

- Laggeri**, producing dainty green cushions of foliage studded with miniature pink flowers, a rare Alpine, *May*, 2 in..... 16/- 1/6

- ANDROSACE lanuginosa**, a lovely Himalayan Alpine of trailing habit, bearing heads of dainty pink flowers and beautiful silvery grey silken foliage, *June-Aug.*, 4 in. ... 10/6 1/-
- sarmentosa Chumbyl**, a very lovely and choice Alpine of easy culture, forming dainty rosettes of rose-pink flowers, *May*, 4 in..... 8/- 9d.
- Vitaliana**. See Douglasia, page 21.

ANEMONE JAPONICA.

ANEMONE Hepatica. See Hepatica, page 28.

ANEMONE JAPONICA (*Japanese Anemones*).

Few plants are more beautiful from *August* to *October*, with their large open saucer-shaped flowers ranging from pure white to full rose-crimson. All are valuable for cutting. They thrive in any ordinary flower border either in full sun or partial shade, and when massed produce a most charming picture.

BARR'S SELECTIONS OF JAPANESE ANEMONES.

12 in 6 beautiful named varieties ...7/6

- alba** (The old Japanese White Anemone), flowers pure white, 3 ft..... 8/- 9d.
- Alice**, large rich pink semi-double flowers, 2½ ft. 10/6 1/-
- Kreimhilde**, very large semi-double rich rose-pink flowers, 3 ft..... 10/6 1/-
- Lady Gilmour** (*syn. crispa*), a very distinct variety, flowers light rose, foliage finely cut and curled, resembling parsley, 2 ft..... 8/- 9d.
- Lorelei**, very large delicate rose-pink flowers with double row of petals, very free, 3 ft..... 8/- 9d.
- Mont Rose**, large semi-double flowers of a beautiful silvery full rose, 2 ft., A.M. R.H.S..... 8/- 9d.
- Prince Henry**, semi-double rich rose-crimson flowers, an improvement on *rubra*, 2 ft.... 10/6 1/-
- rubra**, rich rose-crimson, of dwarf habit, 1½ ft..... 8/- 9d.
- Silver Cup**, large semi-double white flowers of great substance, 2½ ft..... 8/- 9d.

canadensis nana , flowers rose-crimson with yellow corolla, <i>May</i> , 2½ ft.....	10/6 1/-
glandulosa a lovely <i>Siberian</i> species, large open blue flowers with white corolla, 1 ft.....	10/6 1/-
ARABIS (<i>Rock-Cress</i>), for beds, rockwork, and edgings, and to associate with <i>Aubrietia</i> .	
albida fl. pl. , pure white double Stock-like flowers, sweetly scented, <i>May-June</i> , 6 in...	5/6 6d.
„ Taplow Rose , a beautiful variety opening blush and passing to rose, 6 in....	8/- 9d.

ARENARIA (<i>Sandwort</i>), for the rock garden, and carpeting spring bulb beds.	per doz. each.
<i>balearica</i> (<i>Creeping Sandwort</i>), a miniature plant of spreading growth, quickly clothing the shady sides of bare rocks and stones, which it covers with vivid green foliage, besprinkled with tiny white flowers, <i>May-July</i>	5/6 6d.
<i>cæspitosa</i> , creeping masses of green foliage and small white flowers, <i>May-July</i>	5/6 6d.
<i>latifolia</i> , flowers pure white; a showy rock-plant and good for carpeting spring flowering bulbs, <i>June-July</i> , 4 in.	8/- 9d.
<i>montana</i> (<i>Mountain Sandwort</i>), a handsome rock-plant with large snowy white flowers, a fine variety for walls, <i>May-July</i> , 6 in.	8/- 9d.
ARMERIA (<i>Thrift, Sea Pink, or Cliff Rose</i>), valuable for crevices of walls and rocks, also as permanent edgings and for front of borders, <i>May to July</i> flowering.	
<i>cæspitosa</i> , a rare and beautiful miniature Alpine producing tufts of green foliage studded with rosy pink flowers on slender stems, <i>June-July</i> , 3 in.	16/- 1/6
<i>latifolia rubra</i> , crimson flower-heads, prized for cutting, 1½ ft.	8/- 9d.
<i>maritima alba</i> , white flower-heads, 9 in.	8/- 9d.
<i>Lauchæana</i> , dense compact deep green tufts, studded with little spikes of crimson flowers, 6 in.; fine for permanent edgings.	8/- 9d.
<i>rosea</i> , a pretty rose-coloured variety, 9 in.	8/- 9d.
<i>Vindictive</i> , rich rose-crimson flowers, of neat compact habit, the best red variety, 6 in.	10/6 1/-
ARTEMISIA , fine border plants, valued for their silvery grey fragrant foliage.	
<i>Abrotanum</i> (<i>Southernwood or Old Man</i>), an old garden favourite, 2 to 3 ft.	8/- 9d.
<i>lactiflora</i> , creamy white flower-heads, fragrant, a valuable plant for the waterside or a partially shaded situation, <i>Aug.-Sept.</i> , 5 ft.	8/- 9d.
<i>pedemontana</i> , a charming dwarf Alpine, with dainty silvery grey foliage, 4 in.	10/6 1/-
<i>stelleriana</i> , silvery grey foliage, 1 ft.; a valuable plant for front of borders.	8/- 9d.
ASCLEPIAS tuberosa (<i>Butterfly-weed</i>), bearing clusters of brilliant orange flowers, <i>July-Aug.</i> , 2 ft., a handsome border plant, preferring a peaty soil and partial shade.	10/6 1/-
ASPERULA Gussonii (<i>syn. nitida</i>), producing dainty pink flowers from tufts of green foliage; a charming Alpine, <i>June-July</i> , 3 in.	8/- 9d.
<i>hirta</i> , a Pyrenean Alpine with dainty white flowers changing to pink, <i>July</i> , 4 in.	8/- 9d.
<i>odorata</i> , the wild white sweet woodruff, <i>May-July</i> , 1 ft.	8/- 9d.
<i>suberosa</i> (<i>syn. Athoa</i>), a choice Alpine from Greece, with lovely shell-pink flowers and soft grey foliage, <i>May-July</i> , 3 in.	10/6 1/-
ASPHODELINE lutea (<i>Giant Golden Asphodel</i>), stately spikes of large golden-yellow star-shaped flowers, <i>June-July</i> , 3 ft.	10/6 1/-

BARR'S PERENNIAL ASTERS.

Michaelmas Daisies or Starworts.

Gold Medal awarded to us by the Royal Botanic Society.

ASTER NOVI-BELGII GLORY OF COLWALL.

Michaelmas Daisies fill a most important place in all hardy flower gardens, lighting up the borders and shrubberies with masses of brightly coloured blossoms throughout the autumn months up to November, when other flowers are scarce. To cut for vases and church decoration, etc., they are invaluable, providing an inexhaustible supply of bloom. They are also excellent for naturalising in meadows, shrubberies, hedgerows, etc., where the most beautiful effects are easily obtainable by their use; they thrive equally well in partial shade or in full sun. Long borders, drives, shrubby walks, etc., should be planted liberally with breadths of Michaelmas Daisies to obtain fine colour effects during autumn. The graceful small-foliaged varieties of *cordifolius*, *ericoides*, etc., are of great value where light, cloudy effects are required in the border. The New Dwarf Hybrids offered on page 1 are the most decorative of Autumn flowering rock garden plants in existence.

As a pot-plant the Michaelmas Daisy rivals the Chrysanthemum for autumn decoration. Strong single crowns should be potted up in March or April, and grown on in the same manner as Chrysanthemums.

Michaelmas Daisies are of easiest culture, thriving in all soils and situations, and are uninjured by the most severe weather. Plant in spring or autumn.

ASTERS (MICHAELMAS DAISIES), Novi-Belgii Section—continued.

	per doz.	each.
Countess , covered with masses of large double rose-lilac flowers, with rose-coloured buds, a charming colour, <i>early Sept.</i> , 4 ft.....	10/6	1/-
Dick Ballard , forming an erect compact bush, covered with soft rose-lilac semi-double flowers with golden-bronze centre, <i>Sept.</i> , 3 ft., A.M. R.H.S.....	8/-	9d.
Ethel Ballard , forming erect pyramidal plants covered from the ground upwards with large flowers of an exquisite shell-pink colour, <i>Sept.-Oct.</i> , 4 ft., A.M. R.H.S., 1928...	10/6	1/-
Glory of Colwall , large double pale silvery mauve flowers, <i>Oct.</i> , 4½ ft., F.C.C. R.H.S.	8/-	9d.
Grey Lady , very large semi-double opal-grey flowers, <i>Sept.</i> , 3½ ft.	10/6	1/-
King of the Belgians , immense lavender-blue semi-double flowers with golden centre, a bold showy variety, <i>Sept.-Oct.</i> , 5½ ft. A.M. R.H.S.	8/-	9d.
Little Boy Blue , bright blue semi-double flowers, produced on upright pyramidal stems which are completely smothered in bloom, <i>Sept.</i> , 2½ ft. A.M. R.H.S.....	10/6	1/-

- uliginosum** (*Moon Daisy*), large single snowy white flowers, with fresh green foliage;
a stately and showy autumn border plant, *Sept.-Oct.*, 5 ft. 8/- 9d.

CHRYSANTHEMUM DOUBLE, HARDY BORDER VARIETIES.

For late summer and autumn flowering outdoors.

DOUBLE BORDER CHRYSANTHEMUM.

These Hardy Double Chrysanthemums are indispensable for providing decoration in the garden during late summer and autumn and to cut for vases. Plant from mid-April to mid-May, the ground having been prepared by deep digging and a liberal addition of rotten manure. If the summer is dry they should be kept well supplied with water. To induce a bushy growth, the head of the plant should be pinched out about the middle of May and again about the middle of June.

- CRUCIANELLA *stylosa* (*Cross-Wort*), a pretty rock and wall plant of rapid growth, producing a profusion of pink flowers in summer, 6 in., very attractive. 8/- 9d.

HARDY CYCLAMEN, Autumn and Spring-flowering.

These Hardy Cyclamen require perfect drainage and shelter from ground winds and the early morning sun; at the bottom of old walls facing north, in the rock-garden or nestling in the grass near the roots and under the shelter of old trees, they produce a very charming effect; they are also good subjects for fern plantations, where they obtain the shade they like. In making up a suitable soil let there be a liberal proportion of old mortar rubble with the addition of some well-decayed leaf soil and good fibrous loam. Hardy Cyclamen prefer shallow planting, 1 to 1½ inches deep, measuring from top of corm; they should all be given a mulching of well-decayed leaf soil after planting, and if the situation is exposed, a light covering of dry leaves or litter in winter is beneficial.

Autumn-flowering Hardy Cyclamen.

per doz. each.

- cilicicum*, a charming Autumn-blooming species, of neat compact habit, having small rounded, deep green leaves with silvery zone and purple under-surface, flowers light pink with carmine eye. 14/- 1/4
- europæum*, crimson, sweet-scented, *August-flowering*. per 100, 42/- 5/6 6d.

HARDY CYCLAMEN—*continued*.

per doz. each.

- neapolitanum** (*syn. græcum* and *hederæfolium*), the Ivy-leaved Cyclamen, producing in Autumn an abundance of rosy pink flowers, followed by large handsome silver-marbled foliage. AWARD OF GARDEN MERIT R.H.S....per 100, 42/- 5/6 6d.
- neapolitanum album**, flowers pure white, succeeded by beautifully silver-marbled foliage 16/- 1/6

Winter and Spring-flowering Hardy Cyclamen.

- coum**, dark green round foliage and charming deep rose-coloured flowers, *March*..... 21/- 2/-
- ibericum roseum**, producing pretty rose-coloured flowers and silver-zoned foliage, *Feb.* 18/6 1/9

BARR'S DELPHINIUMS.

DELPHINIUMS.**Perennial Larkspurs.**

These handsome stately border plants produce during *June* and *July*, long bold flower spikes ranging in colour from the palest sky-blue to the darkest shades of indigo and violet, and are unrivalled for producing blue effects in the summer border. They should be planted in a rich well-manured soil, and during growth should not be allowed to become dry; a mulching with well-decayed manure is very beneficial. If the situation is exposed it may be advisable to stake the spikes.

DELPHINIUM Belladonna Hybrids, all of distinctive branching habit, making charming border plants. They produce many flower spikes and are invaluable for cutting.

Capri, soft sky-blue, long branching spikes, continuous bloomer, 4 ft., H.C. R.H.S.	16/-	1/6
grandiflorum, Cambridge-blue, very free bloomer, 3½ ft., A.M. R.H.S.	16/-	1/6
Lamartine, violet-blue, very free bloomer, fine for massing, 4 ft., A.M. R.H.S.	16/-	1/6
Moerheimi, flowers pure white, borne on fine branching spikes, 5 ft., A.M. R.H.S.	10/6	1/-
Mrs. J. S. Brunton, large rich sky-blue flowers, continuous bloomer, 4 ft.....	16/-	1/6
Mrs. Thomson, flowers rich clear blue, borne on branching spikes, 4 ft., A.M. R.H.S. ..	10/6	1/-
Musis Sacrum, large pale Cambridge-blue flowers with white eye, good truss, 5 ft..	10/6	1/-
semi-plenum, Cambridge-blue, with double row of petals, 3 ft., A.M. R.H.S.	10/6	1/-
Theodora, vivid gentian-blue, a very striking colour, 4 ft., A.M. R.H.S. , <i>the best of this section</i>	21/-	2/-

DELPHINIUM SPECIES.

cardinale (<i>Scarlet-flowered Larkspur</i>), producing branching stems covered with scarlet flowers; delighting in a deep light sandy soil, 1½ ft.....	10/6	1/-
grandiflorum Blue Butterfly , forming dainty bushes covered with elegant little gentian-blue flowers with dark spots on each petal; a most effective summer bedding plant, 1½ ft., A.M. R.H.S.	8/-	9d.
nudicaule, orange-scarlet flowers; a charming plant for a sunny rock garden, 15 in.	8/-	9d.

DIANTHUS (Alpine or Rock Pinks), all excellent plants for crevices of rocks and walls.

alpinus (<i>The Alpine Pink</i>), deep rose, very beautiful, <i>June-July</i> , 3 in.....	10/6	1/-
cæsius (<i>Cheddar Pink</i>), (true), a most decorative plant suitable for the rock garden walls, or as an edging to the flower border, having silvery grey foliage and rosy pink fragrant flowers, <i>June-July</i> , 10 in.....	8/-	9d.
„ Barr's Rose , rose-pink, semi-double, excellent for edging, <i>June</i> , 10 in.....	8/-	9d.
„ Baker's variety , soft rose-pink fringed flowers arising from tufts of grey foliage, valuable for its bright colour and neat habit, 4 in.....	10/6	1/-
„ Crimson King , <i>see</i> New and Noteworthy Plants, page 2.....	—	2/6
deltoides (<i>Maiden Pink</i>), bright pink, a prostrate-growing rock plant, <i>June</i> , 6 in....	8/-	9d.
„ Brilliant , flowers glowing crimson-red, a beautiful rock plant, <i>June</i> , 6 in.	10/6	1/-
neglectus (<i>Glacier Pink</i>), brilliant cherry-carmine, <i>July-Aug.</i> ; one of the most charming of Rock Pinks, 4 in.....	10/6	1/-
Royssii, a charming hybrid of neglectus bearing beautiful deep rose flowers, <i>June</i> , 6 in.	16/-	1/6
superbus (<i>The Feather Pink</i>), flowers pale purple, beautifully fringed at margin, very fragrant, <i>June-Sept.</i> , 1 ft.	8/-	9d.

DICENTRA (The Lyre Flower) (*syn. Dielytra*).

cucularis (<i>Dutchman's Breeches</i>), flowers white tipped yellow, a charming rock-plant, <i>June</i> , 4 in.....	—	2/6
eximia (<i>syn. formosa</i>), graceful pendant racemes of bright rose heart-shaped flowers and soft fern-like foliage, <i>April-July</i> , 1 ft.....	10/6	1/-
spectabilis, producing on slender stems beautiful bright rose-coloured heart-shaped flowers, a very graceful plant, <i>June-Aug.</i> , 2 ft.....	12/6	1/3

- per doz. each.
- DICTAMNUS** (*Burning Bush*), favourite border plants, growing into fine bushes with spikes of handsome flowers; both foliage and flowers are fragrant, *June-July*.
- caucasicus*, a greatly improved form of *Frazinella*, forming a handsome bush, and bearing red flowers, 2½ ft. 16/- 1/6
- Frazinella*, flowers red, 2 ft. 10/6 1/-
- " *albus*, flowers pure white, 2 ft. 10/6 1/-
- DIELYTRA** *spectabilis*. See *Dicentra spectabilis* (the correct name).
- DIGITALIS** (*Foxglove*), valuable for borders or wild gardens, *June-July* flowering.
- ambigua* (*syn. grandiflora*), **The Yellow Foxglove**, colour variable, the flowers sometimes having a pink shading, a good border plant, 3 ft. 8/- 9d.
- gloxiniæflora alba* (*White Foxglove*), 4 ft. per 100, 30/- 4/- 5d.
- The Shirley**, a remarkably fine handsome giant-flowered strain, with beautifully marked flowers, 5 to 7 ft., A.M. B.H.S. per 100, 25/- 3/6 4d.
- DODECATHEON**, **American Cowslip or Shooting Star**, these beautiful plants should be given a cool situation and a light soil containing peat or leaf-mould.
- Belle Mauve*, producing umbels of pretty rose-pink flowers, eye white rayed gold and scarlet, 14 in. 16/- 1/6
- Meadia*, charming Cyclamen-like flowers with reflexed rose-coloured petals marked gold and chocolate at centre; grow in half-shade; *May-June*, 1 ft. 10/6 1/-
- DORONICUM** (*Leopard's Bane*), handsome early-flowering border plants, producing large showy yellow Daisy-like flowers borne on long stems, valuable for cutting.
- austriacum*, golden-yellow, *April-May*, 1½ ft. 8/- 9d.
- plantagineum excelsum* (*syn. Harpur Crewe*), bearing golden-yellow flowers, *April-June*, 3 ft. 8/- 9d.
- DOUGLASIA** *Vitaliana*, a beautiful little Pyrenean Alpine of the *Androsace* family, golden-yellow flowers rising from dense tufts of bright green foliage, *May-June*, 2 in. 10/6 1/-
- DORONICUM PLANTAGINEUM EXCELSUM.**
- 
- DRACOCEPHALUM** *Forrestii*, a very pretty plant from N. W. Yunnan, having aromatic foliage and deep blue flowers; a good plant for borders or rock garden, *August*, 16 in. 10/6 1/-
- DRYAS** *octopetala* (*Mountain Avena*), a lovely Alpine, having prostrate evergreen foliage and beautiful white flowers, *June-Aug.*, 6 in. 10/6 1/-
- ECHINACEA** *purpurea* **Rose Queen**, bright rose flowers, handsome, *Aug.*, 3 ft. 8/- 9d.
- " " **Taplow Crimson**, a very fine selected form of the **Purple Cone-Flower** bearing handsome rich crimson flowers; one of the best late summer-flowering border perennials, *July-Sept.*, 3 ft. 10/6 1/-
- " **The King**, see **New and Noteworthy Plants**, page 2. 16/- 1/6
- ECHINOPS** (*Globe Thistle*), handsome border plants with ornamental foliage and globular flower-heads, *July-Aug.*
- humilis* **Taplow Blue**, glistening bright blue flower-heads, 5 ft. 10/6 1/-
- Ritro*, deep glistening blue flower heads, 3-4 ft. 8/- 9d.
- EDELWEISS**. See *Leontopodium alpinum*, page 41.
- EPIGÆA** *repens*, a charming and rare North American evergreen shrub, bearing sweetly scented white flowers tinted with rose; it requires a sheltered and shady situation and a peaty soil, *April-June*, 6 in. 36/- 3/6
- EPILOBIUM** *angustifolium* (*Rose Bay or Willow Herb*), flowers rosy red, a showy plant for borders and to naturalise in woodlands, etc., *June-Aug.*, 5 ft. 8/- 9d.
- EPIPACTIS** *gigantea*, producing handsome red flowers with green markings; a charming Terrestrial Orchid for light sandy soil and partial shade, *June-July*, 1 ft. 21/- 2/-
- EREMURUS**; should be planted in Autumn, see our **Autumn Bulb Catalogue**.
- ERICA** (*Hardy Heaths*). An invaluable family of dwarf Evergreen shrubs equally suitable for the rock-garden, border or shrubbery. They are not particular as to soil provided it is well drained and does not contain lime, excepting *MEDITERRANEA HYBRIDA* and *CARNEA* which will grow in a calcareous soil. The ideal soil should contain a proportion of peat or leaf mould. Few families provide such a wide range of flowering, and from one species or another flowers may be had all the year round. 12 in 6 beautiful named varieties. 7/6

ERICA—continued.

	per doz.	each.
<i>carnea</i> (<i>Winter Heath</i>), of dwarf and compact habit, bearing pink flowers, 6 in.; a gem for imparting colour to the garden in Feb. and March, A.M. R.H.S.	8/-	9d.

| Helenium (<i>Elecampane</i>), showy yellow flowers and handsome foliage, <i>July-Sept.</i> , 8 ft.. | 8/- 9d. |

TALL BEARDED FLAG IRISES.

POGONIRIS, OR IRIS BARBATA (FLEUR DE LYS).

For Flower Borders, Shrubberies, and for Naturalising.

Irises in Flower at our Taplow Nurseries.

Flag Irises have always formed an important part of our cultures since as far back as 1870, when our collection was acknowledged to be the most complete in England. Our annual exhibits of these beautiful flowers are always greatly admired.

Within recent years many new seedling varieties have been raised, some of them improvements, others either lacking form or of poor constitution. In the following pages and in our **List of New Irises** on page 2 we have included only those which after trial at our Nurseries have proved to be of good constitution and in our opinion surpass the older varieties.

No garden is complete without Flag Irises, not only on account of their beautiful flowers, but also for the charm of their soft glaucous foliage, which brings into relief the colours of other flowers. The **Dwarf Bearded Hybrids** offered on page 36 should also be included as being specially valuable in the rock garden and for the front of borders.

IRIS, TALL BEARDED FLAG—Group I.—*continued.*

	per doz.	each.
Canari, canary-yellow with orange beard, 2 ft.....	10/6	1/-
Ceres, pearl-white, with orange beard, an early flowerer, 18 in.....	8/-	9d.

Eldorado, S. and F. golden bronze shot with mauve and purple, producing a wonderful glistening colour effect in sunlight, very free flowering, 2½ ft., A.M. R.H.S.....	10/6	1/-
Grevin, S. rich rosy mauve with bronze flush, F. crimson-purple, orange beard, 3 ft.....	10/6	1/-
Ilsan, a very neat and striking Iris, S. smoky lilac, F. clear bright mahogany conspicuously reticulated white at base and with orange beard, 2½ ft.....	21/-	2/-
Isoline, S. silvery lilac shot with rose and gold, F. rosy crimson shot with gold, beard bright orange-yellow, large flower, 3 ft., A.M. R.H.S.....	10/6	1/-
Jacquesiana, S. coppery rose, F. velvety crimson, handsome, 3 ft.....	10/6	1/-
Mady Carrière, S. pale silvery lavender shading to pale amber, F. soft lavender, reticulated bronze on cream ground, with orange beard; robust grower, 3 ft.....	27/6	2/6
Medrano, S. deep crimson with bronze flush, F. crimson-maroon, beard orange, 33 in.....	27/6	2/6
Mons. Boyer, a medium-sized but well-built flower, S. copper shot rose, F. rose heavily suffused crimson and bronze and with large and very conspicuous orange beard which makes the plant exceptionally striking, 3 ft.....	27/6	2/6
Nibelungen, S. old gold, F. deep crimson-purple edged gold, orange beard, 3 ft., A.M. R.H.S.	10/6	1/-
Opera, S. rich rosy mauve with bronze flush, F. rich velvety crimson-purple, 2½ ft.....	16/-	1/6
Porsenna, S. silvery mauve faintly shot with old gold, F. purple, lighter at margin, beard bright orange, 2½ ft.....	10/6	1/-
Prosper Laugier, S. bronze, F. velvety ruby-purple, 31 in., <i>extra fine</i> , A.M. R.H.S.....	10/6	1/-
Quaker Lady, a beautiful soft art colour, S. smoky lavender with amber shading, F. delicate soft blue-mauve with bronze flush, beard rich gold, free bloomer, 3 ft.....	16/-	1/6

IRIS, TALL BEARDED FLAG—Group II.—Section VII.—*continued*.

per doz. each.

Sindjkha , very large flowers, S. bronzy lilac, F. lilac, paler at margin, very strong grower, 3½ ft.....	16/-	1/6
Vingolf , S. smoky primrose sometimes flaked purple, F. dark velvety purple-black, broadly margined primrose, a very showy and distinct Iris, 3 ft.....	27/6	2/6

SECTION VIII.

The Irises in this section are either self-yellow or have yellow standards and falls of crimson, mauve, purple or cream often beautifully veined.

aurea , flowers rich primrose-yellow self, 28 in.....	8/-	9d.
Darius , S. canary, F. mauve broadly edged primrose and with madder reticulation, 32 in.....	8/-	9d.
Flaming Sword , S. bright yellow, F. crimson-maroon bordered yellow and reticulated white, a sturdy grower, 2½ ft., A.M. R.H.S., 1929.....	16/-	1/6
Flavescens , S. canary-yellow, F. cream reticulated bronze at haft, 33 in.....	10/6	1/-
Foster's Yellow , soft creamy yellow, of dwarf habit, suitable for edging, 1½ ft.....	8/-	9d.
Fro , S. clear amber-yellow, F. rich madder-crimson with slight margin of golden-yellow, very free bloomer and showy, 2½ ft., A.M. R.H.S.....	10/6	1/-
Gagus , S. canary-yellow, F. white, freely veined and reticulated madder-purple with primrose margin, very free-flowering, 2½ ft., A.M. R.H.S.....	10/6	1/-
Hector , S. clouded amber, F. deep crimson-purple, 2½ ft.....	8/-	9d.
Iris King , S. old gold, F. rich velvety crimson with golden-yellow margin, large handsome flowers, 2½ ft., A.M. R.H.S., 1929.....	10/6	1/-

IRIS MINNEHAHA.

Lorelei, S. soft saffron-yellow sometimes flaked violet, F. rich violet reticulated white and edged cream, large open flowers, 30 in., A.M. R.H.S..... 8/- 9d.

Marie Corelli, S. primrose-yellow, F. cream, heavily reticulated madder-crimson and edged primrose, 30 in., A.M. R.H.S..... 10/6 1/-

Minnehaha, S. cream, F. cream veined with crimson, deep orange beard, 2½ ft..... 10/6 1/-

Mithras, S. clear amber-yellow, F. velvety purple-maroon, with white reticulation and primrose margin, 2½ ft., *extra fine*..... 10/6 1/-

Montezuma, S. old gold, F. soft yellow shading to cream, margined and veined bronze, 2½ ft. 16/- 1/6

Mrs. Neubronner, golden-yellow self, 2 ft..... 8/- 9d.

Ochracea-cœrulea (*syn. Sunset*), a beautiful distinct variety, S. of a bronzy old gold, F. edged golden-bronze, shading at centre to lilac, beard orange, 34 in., late-flowering, A.M. R.H.S. 16/- 1/6

Ossian, S. canary-yellow, F. rosy claret, a well-built flower, 33 in., A.M. R.H.S..... 16/- 1/6

Prince of Orange, S. rich golden-orange, F. madder-brown veined golden-orange, 2 ft., A.M. R.H.S..... 16/- 1/6

Princess Victoria Louise, large flowers, S. creamy yellow, F. royal purple with striking primrose margin, 2½ ft..... 10/6 1/-

Robert Burns, S. golden-yellow, F. velvety maroon with thin golden margin, 2½ ft..... 8/- 9d.

Saul, S. old gold, large rich dark maroon F. with conspicuous bronze reticulation and orange beard, large flower and late bloomer, 28 in..... 16/- 1/6

Shekinah, a nicely balanced flower of medium size, S. primrose, F. creamy primrose reticulated gold, with orange beard, 2½ ft..... 21/- 2/-

IRIS—TALL BEARDED HYBRIDS.

Very handsome flowers of artistically blended colours and conspicuous beards.

Dalkish (*dalmatica* × *kashmiriana*), S. violet-blue faintly veined, F. silvery mauve veined ruby-purple, golden beard, similar in appearance to an *Oncocyclus* Iris, *May*, 3 ft..... 27/6 2/6

Ibpall (*iberica* × *pallida*), large handsome flowers, S. soft silvery mauve, F. rosy violet with deeper blotch and silvery haft and having a blue-grey beard, *May*, 3 ft..... 27/6 2/6

— In our descriptions, S. denotes the erect petals or standards; F. denotes the falls or pendent petals.

IRIS—*continued.***GROUP III. Dwarf Bearded Hybrid Flag Irises.**

Flowering during March, April, and May.

These beautiful Irises flower from March to May (before the Tall Flag Irises) and are therefore specially valuable in maintaining a succession of bloom from early spring. Being of dwarf growth they are suitable for planting in front of the taller growing Flag Irises. They are also valuable as permanent edgings to Flower Borders and are charming subjects in the Rock-Garden and for old walls. The time of flowering is indicated by numbers after the name, thus (1) is the earliest and (6) the latest to bloom.

„ Naomi (4), S. and F. soft canary-yellow, 6 in.....	10/6	1/-
Curiosity (3), S. yellow, F. golden-bronze flaked purple, 8 in.....	8/-	9d.
cyanea (3), large flowers of a deep rich violet-blue, white beard, 5 in.....	8/-	9d.
Ditton Purple (5), violet-purple, very free and showy, 8 in.....	8/-	9d.
Eburnea (3), S. creamy white, F. creamy yellow, 6 in.....	8/-	9d.
Eclipse (4), S. light violet-purple, F. crimson-purple, <i>very showy</i> , 6 in.....	8/-	9d.
Elegance (2), S. white, F. white shaded cream and lilac, 5 in.....	8/-	9d.
formosa (2), bold flower, S. rich blue, F. purple with white beard, 7 in.....	8/-	9d.
Goldfinch (3), S. canary, F. golden-yellow with orange beard, 6 in.....	16/-	1/6
Gorgeous (3), S. violet-purple, F. rich velvety purple-black, large flowers, 15 in.....	8/-	9d.
gracilis (5), pearl shot sulphur and veined lavender, pale yellow beard, 9 in.....	10/6	1/-
Grisea (6), S. very pale silvery lilac, F. flaked mauve, with beautiful reticulation, 1 ft.....	8/-	9d.
Harmania (4), S. sulphur veined purple, F. yellow heavily marked crimson-purple, beard orange, 5 in., <i>very showy</i>	10/6	1/-
Libra (3), S. violet-blue, F. dark purple with white beard, 6 in.....	8/-	9d.
lurida (6), S. coppery purple, F. deep purplish bronze, 1 ft.....	16/-	1/6
lutescens var. Stellæ (3), S. silvery white, F. shot primrose at haft, 18 in.....	8/-	9d.
Marocain (4), a very fine large-flowered hybrid of I. pumila , remarkable for its splendid colour, S. rich glossy violet-purple, F. violet-black, 7 in.....	16/-	1/6
mellita, yellow form (4), a charming little species ideal for the rock garden, being the Balkan form of I. pumila ; it makes very dwarf compact little plants with short cutlass-shaped foliage and yellowish flowers which may vary somewhat, 4 in. <i>We also have plants of the purple form, the flowers of which are in shades of brownish purple.</i>	10/6	1/-
Miss H. M. White (5), S. and F. pale primrose-yellow shot bronze, orange beard, 8 in.....	8/-	9d.
nudicaulis (5), violet with white beard, 6 in.....	8/-	9d.
„ purpurea (6), rich purple, 9 in.....	8/-	9d.
olbiensis alba (3), S. creamy white, F. faintly marked bronzy lavender, 8 in.....	8/-	9d.
Orange Queen (2), S. clear canary-yellow, F. of a deeper shade, faintly veined and shot bronze, orange beard, 6 in., <i>extra fine</i>	10/6	1/-
Osiris (5), bright blue, very free and showy, with conspicuous white beard, 1 ft.....	8/-	9d.
pumila atro-violacea (1), deep ruby-purple with pale blue beard, 5 in., <i>extra fine</i>	8/-	9d.
„ cœrulea (1), S. sky-blue, F. with deeper shading, very early, and a charming variety for the rock-garden, 6 in.....	8/-	9d.
„ Princess Louise (1), S. Cambridge-blue, F. china-blue reticulated white, a charming rock-plant, 6 in., <i>very fine</i>	16/-	1/6
Purity (1), S. pearly white clouded sulphur, F. marked lilac, 6 in.....	8/-	9d.
Romeo (3), flowers large for this section, S. pale blue, F. rich purple, creamy beard, 8 in.....	8/-	9d.
Rosalie (1), S. violet, F. crimson-purple with white reticulation and beard, 6 in., <i>very early</i>	8/-	9d.
Rosine (3), large flowers, S. creamy white, F. veined lavender, 9 in.....	8/-	9d.
Samboo (2), large flowers, S. violet-blue, F. purple with white beard, 6 in.....	8/-	9d.
Seraphin (2), S. satiny white, F. shaded rosy lilac, very charming, 6 in.....	8/-	9d.
Standard (2), S. violet, F. plum-purple, 7 in.....	8/-	9d.
The Bride (3), S. pale lilac, F. pearly white reticulated bronze, 15 in., A.M. R.H.S.	8/-	9d.
Uranus (4), S. violet-purple, F. purple-black, showy, 1 ft.....	8/-	9d.

IRIS—continued.

GROUP IV. Irises—Beautiful Beardless Species.

Varieties suitable for Borders, Ponds, Damp Places and Rockwork, but all Sun-lovers.

The Irises offered in this Section are all perfectly hardy (*excepting I. japonica*), and quite distinct from the *Bearded Irises*. Those marked thus §, while being beautiful **border plants**, may also be treated as **semi-aquatics**. *None of the Irises in this section require lime*, they thrive best in a rich and moderately heavy soil. **I. cristata** has lovely amethyst-blue flowers, and is charming in the rock garden in sunny but damp situations.

I. unguicularis (*stylosa*) and its varieties, if grown in a sunny and well-drained position, will yield abundance of charming flowers throughout winter.

Plant the Irises in this section, if possible, in early autumn or spring; if in spring, plant firmly and attend to with water until established. When planting in damp marshy ground, or at water's edge, spring planting is recommended after the winter floods have subsided.

IRIS KÄMPFERI (JAPANESE FLAG IRIS).

GROUP V. Iris Kämpferi.
The Clematis-like Iris of Japan.

This Section contains the most beautiful of the moisture loving Irises, their immense Clematis-like flowers are exceptionally showy, the prevailing colours being combinations of *white, purple, crimson-purple, violet and blue*, flowering from late in *June* to early *August*, ht. 2½ ft.

Culture.—Plant in full sun, if possible at the water's edge where the fibrous roots can reach the water but the crowns are above water level, during summer they will not resent being slightly flooded, but must be kept reasonably dry in winter. The soil should be rich and heavy rather than sandy, and should not contain lime. They may also be successfully grown in the border if the soil is naturally of a cool nature and is kept well hoed in summer.

Barr's Selections of Japanese Flag Irises.

Our collection consists of the choicest varieties both as regards size of flower and diversity of colour and cannot fail to please purchasers.

KNIPHOFIA—Red-hot Poker.

KNIPHOFIA (*syn. Tritoma*), popularly known as the "**Torch-Lily**," "**African Flame-Flower**," or "**Red-hot Poker**." From a dense root-foliage rise stout stems, surmounted by brilliantly coloured tubular flowers. Its noble appearance and showy flower spikes render the *Kniphofia* a valuable plant for shrubberies, flower borders, beds on lawns, and wild gardens. The flowering season extends from *June* to *October*, the early flowering varieties often producing a second crop of bloom.

- Cardinal*, brilliant coral-scarlet flowers passing off to primrose, handsome, *June*, 5 ft..... 27/6 2/6
- corallina superba*, coral-scarlet flushed gold; spikes of medium size, very showy and free flowering, *Aug.-Sept.*, 3 ft..... 16/- 1/6
- Goldelse*, a graceful little variety with slender spikes of golden-yellow flowers, *June-Sept.*, very effective, 2-2½ ft., *A.M. R.H.S.*..... 16/- 1/6
- Macowanii*, spikes of glowing coral-red flowers; a showy variety for the front of borders, *Aug.-Sept.*, 2 ft., *F.C.C. R.H.S.*..... 27/6 2/6
- Northiæ*, flowers sealing-wax red shaded primrose-yellow, with bold and handsome foliage, *June*, 5 ft..... 27/6 2/6
- Royal Standard*, producing slender stems crowned with neat heads of bloom opening bright orange-scarlet and gradually passing to citron-yellow, providing a charming contrast of colour, *Aug.-Oct.*, 3½ ft..... 16/- 1/6

LATHYRUS WHITE PEARL.

LATHYRUS (*Perennial or Everlasting Pea*).

Handsome subjects for forming floral screens or for training over pergolas, arches, etc. They produce an abundance of charming flowers during July and August, and are therefore valuable for filling in the gap between early Summer and Autumn-flowering Roses.

- latifolius* *Rose Queen*, bright rose flowers of good size, borne in large trusses, forming a large handsome spreading bush, *July-Aug.*..... 16/- 1/6
- „ *White Pearl*, long sprays of pure white flowers, *July-Aug.*, *A.M. R.H.S.* 16/- 1/6

- LAVATERA** *Olbia rosea*, producing a continuous supply of flowers of a beautiful rose shade from *June* to *Sept.*, 4 ft.; a distinct improvement on *L. Olbia*, the flowers being of a deeper colour, *A.M. R.H.S.*..... 10/6 1/-

per doz. each.

- LAVENDER**, favourite fragrant evergreen plants suitable for low hedges or for dry banks with sunny aspect; the cool green and silver-grey colour of its foliage renders the Lavender an admirable foil to more brightly coloured subjects, *July-Sept.*
- Bowles' Early Dwarf**, a fine dwarf variety of bushy habit with light blue richly scented flowers, 1 ft.....per 100, 50/- 7/- 8d.
- Dutch Lavender**, beautiful silvery grey foliage and deliciously fragrant flowers which open a trifle later than those of the *Old English Lavender*, 1½ ft.....per 100, 45/- 6/- 7d.
- Grappenhall**, a handsome variety producing in profusion tall spikes of very large, pale blue sweet-scented flowers, 2½ ft.....per 100, 45/- 6/- 7d.
- Munstead Large-flowered Early Dwarf**, a charming variety, producing large spikes of sweet-scented blooms of a deeper colour than the *Old English Lavender*; it also blooms earlier and is much dwarfer, 1 ft. We have received an A.M. R.H.S. for this variety.....per 100, 50/- 7/- 8d.
- nana atro-purpurea**, a pigmy variety, forming compact little bushes covered with miniature spikes of deep violet-blue flowers, a valuable rock-plant, 9 in., per 100, 55/- 7/6 8d.
- Old English Sweet-scented Lavender**, 2½ ft..... „ 45/- 6/- 7d.
- White-flowered**, tall spikes of pure white flowers, 1½ ft..... 8/- 9d.
- LENTEN ROSES.** See *Helleborus orientalis*, page 26.
- LEONTOPODIUM alpinum** (*The Edelweiss*), for dry sunny aspects, *June-July*, 6 in... 8/- 9d.
- LEWISIA.** See *New and Noteworthy Plants*, page 3.
- LIATRIS spicata** (*Devil's-bit*), producing densely crowded spikes of rose-purple flowers; an effective plant in the flower border and excellent for damp situations, *July-Sept.*, 3 ft. A good bee plant..... 8/- 9d.
- graminifolia dubia**, producing stately spikes clothed with tassel-like crimson flowers, *July-Sept.*, 5 ft. An excellent plant for damp situations..... 8/- 9d.
- LILIUM** (*The Lily*). See our *Spring and Autumn Bulb Catalogues*.
- LILY of the VALLEY.** See our *Spring and Autumn Bulb Catalogues*.
- LINARIA** (*Toad-flax*), summer-flowering rock-garden and border plants.
- alpina**, a dainty rock plant, flowers purple with orange blotch, 3 in..... 8/- 9d.
- „ rosea**, rose-pink with bright orange lip; of trailing habit, 3 in..... 8/- 9d.
- cymbalaria** (*Kenilworth Ivy*), a charming trailing species for crevices of walls, etc., producing in profusion dainty lilac flowers with orange lip..... 8/- 9d.
- dalmatica superba** (*syn. macedonica*), a first class border plant, and a great improvement on the type; it produces spikes of yellow and orange flowers, remaining decorative for a long period, 4 ft., A.M. R.H.S..... 8/- 9d.
- origanifolia**, beautiful lilac flowers with yellow throat, 6 in..... 8/- 9d.
- LINNÆA borealis**, a charming prostrate trailing evergreen, with bronze foliage and dainty pink bells during summer; a choice rock and undergrowth plant delighting in moist situations in woods, *May-July*, 6 in..... 16/- 1/6
- LINUM**, the following are showy border and rock-garden plants, *June-July*.
- alpinum**, clear sky-blue flowers; a lovely plant for the rock-garden, of semi-prostrate habit, 6 in..... 10/6 1/-
- arboreum**, flowers lemon-yellow, a handsome plant for borders or the rock garden, 6 in. 8/- 9d.
- capitatum**, fine rock and border plant, beautiful clear golden flowers, *May-June*, 1 ft. 8/- 9d.
- monogynum**, compact bushes of snow-white flowers, 15 in..... 8/- 9d.
- narbonense**, flowers brilliant sky-blue, a very beautiful border plant, 1½ ft..... 8/- 9d.
- „ Six Hills Variety**, see *New and Noteworthy Plants*, page 4 16/- 1/6
- perenne**, flowers clear sky-blue, a graceful border plant, 2 ft..... 8/- 9d.
- LITHOSPERMUM**, beautiful evergreen rock-plants for sunny or partially shaded situations; flowers of the richest blue shades.
- graminifolium**, producing clusters of deep blue flowers from tufts of deep green foliage, *June-Aug.*, 6 in..... 10/6 1/-
- petraeum** (*syn. Moltkia petraea*), a choice and rare Alpine, bearing clusters of brilliant blue flowers, *June-Aug.*, 6 in..... 16/- 1/6
- prostratum Heavenly Blue**, bright sky-blue flowers, a lovely rock-plant, *May-Sept.*, 4 in., A.M. R.H.S..... 8/- 9d.
- purpureo-cœruleum**, flowers purple passing to blue, strong free grower of trailing habit, excellent for rough stony banks, etc., *June*, 1 ft..... 10/6 1/-
- rosmarinifolium**, an excellent subject for the alpine house, forming little shrubby bushes bearing clear blue flowers from *Feb.*; if grown outside some protection for the flowers should be provided, 1 ft..... 16/- 1/6

	per doz.	each.
LOBELIA , very handsome showy border plants, flowering from <i>August to October</i> ; plant out in May, in a rich and preferably moist situation. Protect from frost in winter.		
fulgens Fire Fly , a handsome border plant with vivid crimson-scarlet flowers, and fresh green foliage, 3 ft.....	8/-	9d.

„ <i>lobata</i> , small dark green leaves produced in <i>spring</i> , which die away to appear again together with large open canary-yellow flowers in <i>late summer</i> , a very attractive rock-plant, of prostrate habit.....	27/6	2/6

PÆONIES.—BARR'S HARDY DOUBLE CHINESE.

June and July-flowering. Sweet-scented.

DOUBLE CHINESE PÆONY EUGÈNE VERDIER.

These magnificent Pæonies bear large handsome flowers during *June*, in many beautiful colours, including *pure white, blush-rose, pink, bright and deep crimsons*, while most of them are deliciously rose-scented. Their ornamental and massive foliage, in addition, renders them attractive plants for the herbaceous border or to intermingle with shrubs. When planted in beds or grouped in the flower border, Lilies (especially *L. speciosum* and *L. auratum*) should be associated with them, as they do well together, and succeed each other in time of flowering. The flowers are greatly valued for cutting, and the buds open freely in water; the foliage is also useful for cutting during autumn for church and indoor decoration, the leaves assuming beautiful autumnal tints of bronze and crimson.

Culture.—Before planting trench the ground as deeply as possible, adding abundance of *rotten manure*, and after planting mulch the surface with manure. Occasional applications of liquid manure during the growing season are beneficial and the plants should remain undisturbed as long as possible. As Pæonies form their flower-buds during *spring*, plant in a *N.W., S.W. or W. aspect*, so that the sun's rays do not fall upon them before 11 or 12 o'clock, or the flower buds may be damaged by the

early morning sun falling on them while they are in a half-frozen state. This can be obviated by selecting the positions named above.

THE PLANTING season for Pæonies is from *September to March*; those planted in *early autumn* should produce some bloom the following summer.

BARR'S HARDY SINGLE CHINESE & JAPANESE PÆONIES.

These **Single Pæonies** are valuable for cutting, having flowers of great beauty ranging in colour from *white, blush, pink*, and *rose to deep crimson*. They bloom in *early June*, and are exceedingly decorative plants for herbaceous borders and to intermingle with shrubs; they are also excellent subjects for woodland walks or drives, $3\frac{1}{2}$ -4 ft.

The **Chinese** varieties are true singles with pollen bearing anthers, whereas in the **Japanese** (marked †) the centre consists of abortive anthers more or less transformed into narrow petaloids.

Culture.—*Any ordinary garden soil enriched with manure.*

12 in 12 beautiful named varieties, 18/-

HARDY MAY-FLOWERING DOUBLE PÆONIES.

Varieties of *Pæonia officinalis*.

These Pæonies are very old inhabitants of our gardens, and few plants are so free-flowering and decorative as the **Old Double Crimson**, **Rose**, and **Flesh-White** Pæonies. They make very effective border plants, and are also excellent for planting in shrubberies or drives.

Culture.—Any ordinary garden soil enriched with manure. They thrive equally well in full sun or shady situations.

MAY-FLOWERING SINGLE PÆONIES.

Hardy Species and Varieties.

These **Single Pæony Species**, the majority of which are of European origin, contain some of the most beautiful of the genus, and in many cases are now becoming extremely rare, the following collection is, we believe, the most complete now in commerce. Not only are they of great beauty and interest in the garden or herbaceous border but they can readily be established in grass and may be used with considerable effect in shrubberies or drives. They are of easy culture and perfectly hardy and will succeed in any fertile soil (preferably enriched with manure) either in full sun or partial shade and should be disturbed as little as possible.

HARDY TREE PÆONIES (*Pæonia Moutan*).

The *Tree Pæony* is a native of *China* and *Japan* and of extreme antiquity. A well-grown specimen is one of the finest hardy shrubs imaginable and is not of difficult culture. They are perfectly hardy and will succeed in any good rich, well-drained garden soil. They should be planted in a south-west aspect sheltered from cutting winds and early morning sun, in order to avoid injury to the flower buds by late spring frosts. The immense flowers are borne in *May*, and when established the plants will attain a height of 4 to 6 ft. They may also be grown in pots for conservatory decoration, and will bear very gentle forcing.

Strong plants of *Japanese varieties* to name in various shades of crimson, red or white, all beautiful; we regret being unable to guarantee the colours this season as we have not flowered them..... In pots, each 7/6

PAMPAS GRASS. See *Cortaderia*, page 68.

„ „ Extra Choice, very large handsome well-marked flowers „	42/-	„ 5/6
For Tufted Pansies or Bedding Violas, see page 67.		

PAPAVER ORIENTALE (Giant Oriental Poppies).

A Select List of the best varieties in cultivation.

For gorgeous colouring, these handsome **Giant Oriental Poppies** have few rivals amongst hardy plants. During *May* and *early June* their noble foliage and large brilliant flowers produce a magnificent effect in shrubbery and herbaceous borders, or wherever large breaks of distinct and glowing colours are required. As isolated subjects in grass, or naturalised in the wild garden, they are very effective. The flowers are greatly valued for vases, and will last long in water if cut in the early morning when the bud is bursting, and the outer green calyx be stripped off.

PAPAVER ORIENTALE, BARR'S WHITE.

We recommend *Gypsophila Bristol Fairy*, *paniculata* or *paniculata fl. pl.*, for intergrouping with the **Oriental Poppies**, as they come into bloom as the poppies are going over, thus maintaining a floral decoration up to *September*. Plant in *autumn* or *early spring*.

BARR'S LARGE-FLOWERED PHLOXES.Varieties of *Phlox decussata* (*syn. paniculata*).

A SELECT LIST OF THE BEST VARIETIES IN CULTIVATION.

For Late Summer and Autumn-flowering (July to September).

BARR'S LARGE-FLOWERED PHLOXES.

These grand **Perennial Phloxes** deserve a prominent place in all hardy flower borders, or where breaks of brilliant colours are required during *July, August and September*. When cut, their large heads of bloom go a long way in floral decorations. The colours range from *pure white* to the *richest crimson*, *pale mauve* to *deep purple* and *violet*, and from *soft rose* and *salmon* to *bright coral-red*, all having a delicate fragrance. They succeed in almost any soil enriched with manure, but are benefited by a mulching of decomposed manure in *spring*, and in hot weather by occasional soakings of water. In warm districts it is best to plant them in partial shade, the flowers then lasting much longer than when grown in the full sun.

The **Perennial Phlox** has been greatly improved during the last few years, the result being larger and bolder heads, with individual flowers twice and three times the size of those of the older kinds. The varieties offered below include the **finest of the new introductions** and only the **very best** of the older kinds.

H. B. May, very large pale pink flowers, borne on an immense truss, 3 ft.....	16/-	1/6
Jules Sandeau, large truss of soft rose-pink flowers, of very good compact habit, 2½ ft....	8/-	9d.
Lofna, flowers a beautiful clear pale rose-pink with white centre, fine truss, 3 ft.....	10/6	1/-
Metéore, very large clear self-pink flowers, starred white at centre, branching habit, 3½ ft.	10/6	1/-
Mrs. H. J. Jones, very large soft pink flowers with bright rose centre, dark foliage and stems, 2½ ft., extra fine.....	16/-	1/6
Mrs. Milly van Hoboken, flowers large and handsome, soft self pink with carmine eye, borne on long erect spikes, 3 ft., extra fine.....	10/6	1/-
Mrs. Rutgers, delicate flesh-pink with soft rose centre, large flowers and truss, 2½ ft.....	8/-	9d.
Rijnstroom, large trusses of fine rosy pink flowers, 3 ft., one of the best rose-pinks, A.M. R.H.S.	8/-	9d.
Selma, soft pink, with large ruby centre, 3 ft.....	8/-	9d.

Large-flowered Salmons and Scarlets.

Aurora, salmon-scarlet with glowing crimson eye, of branching habit, 3 ft., very fine.....	10/6	1/-
Coquelicot, large handsome heads of vivid orange-scarlet flowers with crimson eye, of branching habit, 3 ft., A.M. R.H.S.....	8/-	9d.
Etna, branching spikes of brilliant salmon-scarlet flowers, with small crimson eye, 3½ ft., A.M. R.H.S.....	10/6	1/-
Evelyn, branching spikes bearing large heads of bright salmon-pink flowers with ruby eye, very fine, 2½ ft.....	8/-	9d.
Gen. van Heutsz, a brilliant shade of scarlet-cerise, centre of flower ivory-white, very effective and of good branching habit, 3 ft.....	8/-	9d.
G. A. Ströhlein, large orange-scarlet flowers with crimson centre, good branching habit, 3 ft., extra fine, A.M. R.H.S.....	10/6	1/-
Karl Foerster, large flowers of a vivid deep orange-red with dark crimson eye, a great improvement on Homeland, 2½ ft.....	10/6	1/-
Saladin, vivid orange-scarlet with crimson eye, an improvement on the well-known Coquelicot, 3 ft.....	16/-	1/6
Thor, bright salmon with ruby centre, large flower and truss, very showy, 3 ft.....	8/-	9d.

Large-flowered Full Roses and Crimson.

Aegir, large glowing crimson-scarlet flowers which do not burn in the sun, 3 ft.....	10/6	1/-
Camillo Schneider, large glowing crimson-scarlet flowers, an improvement on Aegir, 3 ft.....	16/-	1/6
Eclairer, immense crimson-lake flowers and truss, set off by dark green foliage and stems, 2½ ft., A.M. R.H.S.....	8/-	9d.
Emain Macha (new), a very fine rich crimson self of dwarf habit, 2 ft.; an excellent companion plant to Gustaf Lind and Mia Ruys.....	27/6	2/6
Gustaf Lind, large flowers of a beautiful rose-scarlet self, borne on massive trusses, 2 ft. There are many tall growing red varieties but this is the only really good dwarf rose-scarlet Phlox. A delightful effect may be produced if it is planted with Mia Ruys.....	16/-	1/6
Henri Royer, fine massive trusses of large flowers, rich madder-carmine, starred white at eye, very distinct, of dwarf compact habit, 2 ft.....	16/-	1/6
Jules Cambon, compact and striking truss, bright rose with suffusion of lilac and very large white eye, 2½ ft.....	10/6	1/-
Leo Schlageter, producing pyramidal trusses of very large flowers of a vivid crimson-scarlet with deeper eye, 2½ ft., undoubtedly the best tall Phlox of its colour.....	10/6	1/-
Professor Went, very rich ruby-crimson flowers, fine large trusses and of good habit, the richest coloured crimson Phlox and a notable addition, 2½ ft.....	10/6	1/-
Smiles, large rose flowers with crimson eye, 2½ ft.....	10/6	1/-

PHLOX, Barr's Large-Flowered—continued.

per doz. each.

Large-flowered Blue, Purple, Lilac, Mauve, and Grey Shades.

Antonin Mercie, large lilac flowers with white centre, very pretty, 3 ft.....	8/-	9d.
Burgundy, large heads of an intense deep wine-purple, 3 ft., <i>extra fine</i>	10/6	1/-
Caroline Vandenberg, large flowers of a charming lilac-purple self with dark stems, 3 ft....	10/6	1/-
Crepuscule, silvery lilac flushed rose, crimson centre, fine truss of large flowers, 3 ft.....	8/-	9d.
Dr. Charcot, large lilac flowers starred white at centre, distinct, 2½ ft.....	10/6	1/-
Le Mahdl, producing deep ruby-purple flowers, a fine bright self colour, 2½ ft., A.M. R.H.S.	8/-	9d.
Lord Raleigh, the nearest approach to a violet-blue, good truss, 2½ ft.....	16/-	1/6
Marie Jacob, large flowers set on a big compact truss, pale lilac with large white eye, 2½ ft.	10/6	1/-
Mrs. Ethel Prichard, very fine large flowers set on a compact truss, a beautiful self silvery rosy lilac, 3 ft.....	10/6	1/-
Pharaon, soft rosy mauve flowers with large white centre, fine truss, 3 ft.....	8/-	9d.
Rosenburg, very large flowers borne on fine trusses, brilliant purple-rose with bright crimson eye, the foliage being an attractive light green, 2½ ft.....	16/-	1/6
W. Kesselring, large trusses of bright purple-rose flowers with large white central star; of dwarf compact habit and very free flowering, 2 ft.....	10/6	1/-

PHORMIUM Colensoi (*New Zealand Flax*), a stately plant, with broad blue-grey gigantic Iris-like foliage, from which arise spikes of reddish brown flowers, 3 to 4 ft. high; quite hardy on sunny slopes, on raised beds, or in sheltered gardens.....*Strong plants* — 3/6

PHYGELIUS capensis (*Cape Figwort*), a showy border plant forming a bush covered with spikes of brilliant scarlet tubular flowers during *summer*, 3 ft..... 8/- 9d.

PHYSALIS Alkekengi (*Small Scarlet Chinese Lantern*), producing in *late summer* spikes of orange-coloured berries enclosed in orange-scarlet bladder-like calyxes, resembling miniature Chinese lanterns; most valuable for winter decoration, 1½ ft..... 8/- 9d.

Franchetti (*Giant Scarlet Chinese Lantern*), producing bright orange-red berries, encased in scarlet calyxes, much larger than those of *P. Alkekengi*, *Aug.-Sept.*, 2½ ft.; valued for winter decoration, A.M. R.H.S..... 8/- 9d.

PHYSOSTEGIA speciosa (*Giant Pink Shell-flower*), sprays of soft rose-pink flowers, *July-Sept.*, 5-6 ft.; a good plant for water-side or damp positions..... 8/- 9d.

PINKS, Hardy Border Varieties. Fine border plants, also excellent *summer-flowering* subjects for lean-to walls; all valuable for cutting. Height 1 ft.

Donnizetti, a fine Pink producing vivid crimson flowers with maroon eye, A.M. R.H.S. 16/- 1/6

Early Blush and Rose-Pink, a very early strain, producing semi-double fringed flowers of rose and blush-pink shades..... 8/- 9d.

Inchmery, silvery pink self, sweetly scented, very free, *extra fine*..... 16/- 1/6

Mrs. Prior, semi-double fringed white flowers with large crimson eye, very free..... 8/- 9d.

Mrs. Sinkins, pure white flowers, strongly clove-scented.....per 100, 42/- 5/6 6d.

Red Knight, *see New and Noteworthy Plants, page 4*..... — 2/6

White Ladies, pure white flowers, sweetly fragrant, a great improvement on Mrs. Sinkins 10/6 1/-

PLATYCODON (*Chinese Balloon-flower*), very handsome hardy border perennials allied to the *Campanula*, producing from *July* to *September* handsome open cup-shaped flowers, which in the bud stage are inflated like a balloon; valuable for cutting.

Mariesii, bearing large expanded rich violet-blue cup-shaped flowers, 1½ ft..... 8/- 9d.

„ **album**, exterior pale china-blue, interior white, attractive, 1½ ft..... 8/- 9d.

POLEMONIUM cœruleum (*Jacob's Ladder*), sky-blue flowers, rising from a tuft of soft green foliage, *June-Aug.*, 2 ft..... 8/- 9d.

cœruleum album, flowers snow-white with golden anthers, *June-Aug.*, 1½ ft..... 8/- 9d.

POLYANTHUS, the true old type, for centuries a favourite flower in English gardens.

Barrowby Gem, *see New and Noteworthy Plants, page 4*..... 21/- 2/-

True Gold-Laced Polyanthus, deep maroon edged golden-yellow, a grand strain with well-marked flowers, suitable for exhibition..... 5/6 6d.

Hose-in-Hose, a quaint old garden plant producing duplex scarlet flowers with yellow throat, one bloom within the other..... 8/- 9d.

„ **Yellow**, a yellow-flowered variety of the above..... 10/6 1/-

Jack-in-the-Green, Crimson, a charming old-fashioned garden favourite having brilliant crimson flowers with bold orange eye, resting upon green leaf-bracts..... 8/- 9d.

Jack-in-the-Green, Yellow, differing only from the above in having yellow flowers 10/6 1/-

per doz. each.

POLYANTHUS-PRIMROSE, also called **Cluster** or **Bunch Primroses**, being a cross between the Polyanthus and Primrose. Early in the year the solitary flowers of a Primrose appear, followed later on by stout stems carrying handsome heads of large fragrant flowers of many rich and brilliant colours. Naturalised in half-shady glades, in the rock-garden or on old walls, they present a lovely picture in spring. They thrive best in a somewhat cool shady situation, but may be used with great effect for general Spring Bedding.

Barr's Giant Maroon Strain, a carefully selected large-flowered strain raised at our Nurseries, flowers ranging from maroon-black to rich crimson-maroon, very handsome.....per 100, 60/- 8/- 9d.

Barr's Giant Rose, producing in early spring very large clusters of immense single flowers 2 in. across, borne well above the foliage on a stout stem, colour an attractive old rose with canary eye, *extra fine*..... 16/- 1/6

Barr's Highly Coloured Strain, a very carefully selected large-flowered strain of our own raising, colours ranging from rich scarlet to deep velvety crimson and crimson-maroon with showy yellow eye unequalled for spring decoration. per 100, 30/- 4/- 5d.

Barr's White Strain, a carefully selected strain of large-flowered Polyanthus all with a more or less pronounced orange eye.....per 100, 30/- 4/- 5d.

Barr's Yellow Strain, large flowered and very showy..... „ 30/- 4/- 5d.

Purple Strain, purple to rich velvety purple, with yellow eye, all very handsome..... 16/- 1/6

Gaiety, see **New and Noteworthy Plants**, page 4..... — 2/6

Gold-Laced, see **Polyanthus**, page 54.

The Spetchley Strain, a lovely mixed strain of Giant-flowered Polyanthus-Primroses. The plants are of strong robust growth and the flowers of immense size, ranging through a great variety of beautiful colours and art shades. **AWARD OF MERIT** and **SILVER FLORAL MEDAL**, R.H.S.....per 100, 30/- 4/- 5d.

POLYGONATUM (*Solomon's Seal*, or *David's Harp*) producing numerous bunches of drooping white flowers on graceful arching leafy stems; shade-loving plants, valuable for naturalising in woodlands, shady flower borders, etc. They also make very elegant pot plants, and will stand gentle forcing. Plant Nov. to Feb.

macrophyllum, the **Large-leaved Giant Solomon's Seal**, a fine variety with handsome foliage and long graceful spikes of white flowers, 3 ft.....per 100, 35/- 5/6 6d.

multiflorum, the **Tall Solomon's Seal**, a fine bold plant of graceful habit, having arching leafy stems with pendent white flowers, 2 ft.....per 100, 25/- 3/6 4d.

officinale, the **Common Solomon's Seal**, of dwarf graceful habit, with elegant white flowers, 1½ ft.....per 100, 25/- 3/6 4d.

POLYGONUM (*Knot-Grass* or *Knotweed*). Suitable for borders or carpeting beneath trees, thriving in partial shade, or in full sun.

affine (*syn. Brunonis*), a pretty Himalayan Alpine producing a dense carpet of pretty foliage turning red in autumn, and attractive little spikes of pink and rose flowers, *July-Oct.*, 1 ft.; for front of borders, the wild garden, or permanent edgings..... 8/- 9d.

amplexicaule atro-sanguineum, producing innumerable graceful sprays of bright crimson flowers during summer and autumn, foliage passing off crimson, 3 ft..... 8/- 9d.

baldschuanicum, see **Climbers**, page 75..... 21/- 2/-

vaccinifolium, a charming rock and wall plant of trailing habit, producing little spikes of rosy pink flowers, *Aug.-Oct.*, 4 in..... 10/6 1/-

POTENTILLA Double-flowered, the following double-flowered varieties are showy plants for front of borders, being of spreading trailing habit, *June-Aug.*

Monsieur Rouillard, flowers a beautiful velvety vermilion-crimson, shading to gold towards edge of petals, golden anthers, *very showy*, 2 ft..... 10/6 1/-

Toussaint l'Ouverture, very large flowers, rich velvety blood-crimson, shaded deeper towards centre, 2 ft., *very fine*..... 10/6 1/-

William Rollison, bright orange with golden centre, 18 in., *very showy*..... 10/6 1/-

Yellow Queen, large golden-yellow semi-double flowers, 18 in., *very fine*..... 8/- 9d.

POTENTILLA—Various species and hybrids.

alba, large single white flowers, in bloom throughout the year, 6 in..... 8/- 9d.

ambigua, rich golden flowers and dense close foliage, *May-Sept.*, 3 in..... 8/- 9d.

Fireflame, single fiery scarlet flowers and neat daintily cut silver edged foliage, *very showy*, *May-June*, 1½ ft..... 10/6 1/-

Friedrichseni, of shrubby habit, open lemon-yellow flowers, *June-Aug.*, 1½ ft..... 16/- 1/6

Hopwoodiana, very pretty cream-coloured flowers, beautifully veined salmon-pink with blood-crimson eye, *June-July*, 1 ft..... 16/- 1/6

Miss Willmott, flowers clear pink with crimson eye, *June-Sept.*, 2 ft..... 8/- 9d.

nitida, a beautiful dwarf Alpine species, foliage silvery grey studded with rose-pink flowers, *June-Sept.*, 3 in..... 10/6 1/-

Tonguei, apricot with crimson centre, *June-Aug.*, 4 in.; a charming rock-plant..... 8/- 9d.

	per doz. each.
POTERIUM obtusum , a lovely border plant introduced by us from <i>Japan</i> , producing throughout summer long graceful spikes of bright rose-pink feathery flowers, foliage soft green, <i>July-Sept.</i> , 2-3 ft.; it may also be grown by the water-side, A.M. R.H.S.	10/6 1/-
PRIMROSE , the true type, producing solitary flowers on a stem instead of several like the Polyanthus-Primrose . Very beautiful when naturalised in woodlands, shrubberies, banks, and rock gardens, all delighting in a cool and partially shaded situation.	
Single English Yellow, strong tufts.....per 1,000, £7; per 100, 15/-	2/3 3d.
„ Barr's Blue Shades , our own special strain, ranging from light to deep blue, very beautiful.....	8/- 9d.
„ Barr's Large-flowered White Strain , a very beautiful strain.....	5/6 6d.
„ W. T. Ware , producing in early spring very large single flowers of a glowing velvety royal-purple, with large canary eye, very striking.....	16/- 1/6
Double Mauve (or lilac), beautiful fully double mauve-lilac flowers.....	8/- 9d.
„ Sulphur , soft sulphur-yellow double flowers.....	16/- 1/6
„ White , fully double pure white flowers.....	8/- 9d.
„ Arthur Dumolin , beautiful lilac-purple semi-double flowers with yellow eye.....	16/- 1/6
„ Burgundy , large double flowers of a rich crimson-purple, thinly edged silver, with small white and yellow eye.....	21/- 2/-
„ Cloth of Gold , large fully double primrose-yellow flowers.....	27/6 2/6
„ Marie Crousse , large double flowers of a beautiful light rose-purple, with thin silver edging.....	16/- 1/6
„ Prince Silverwings , a very pretty old semi-double Primrose, purple with golden eye on lemon ground, the whole flower distinctly edged cream.....	— 2/6
„ sanguinea plena , very fine double flowers of a beautiful rich rose with golden eye, petals thinly edged silver, a beautiful bright flower.....	— 2/6

See also **Polyanthus-Primrose**, page 55.

PRIMULA, Hardy Alpine and Border Varieties. Many are valuable plants for the rock and Alpine garden, while the varieties marked † are suitable for damp and shady situations in the flower border or by the side of streams, etc..

12 in 12 beautiful named varieties (our selection) 9/6

altaica grandiflora , soft lilac flowers with golden eye, flowering very early in spring, often commencing to bloom in <i>January</i> , very free-flowering, 6 in.....	10/6 1/-
† Beesiana , producing spikes of velvety purple flowers, with yellow eye, arranged in whorls on the stem, <i>May-June</i> , 1½ ft.....	10/6 1/-
† Bulleyana , a beautiful species bearing whorls of rich orange flowers shaded buff and apricot, <i>May-June</i> , 1½ ft.....	10/6 1/-
† Bulleyana x Beesiana Hybrid , producing charming spikes of flowers of various shades of rose, 1½ ft.....	10/6 1/-
capitata Mooreana , a distinct form of capitata , and a much more desirable plant, being a true perennial; large heads of Tyrian-purple flowers with white powdered stem and foliage, <i>May-July</i> , 9 in.....	10/6 1/-

PRIMULA DENTICULATA.

chionantha , mealy foliage and stems surmounted by a dense umbel of sweet-scented white flowers, with dark centre; requires a well-drained cool soil and shady situation, <i>May</i> , 1½ ft., A.M. R.H.S.	10/6 1/-
Cockburniana , a lovely species bearing whorls of brilliant scarlet flowers shading to orange, <i>June</i> , 1 ft.....	10/6 1/-
† denticulata alba , heads of beautiful pure white flowers, <i>March-May</i> , 1 ft.....	8/- 9d.
† „ superba , an improved variety with heads of large bright violet flowers, very showy and handsome; suitable for moist situations in the rock-garden, <i>March-May</i> , 1 ft.....	8/- 9d.
† Florindæ , large heads of clear yellow flowers borne on a stout stem, <i>June-July</i> , 3 ft.; similar to sikkimensis , but a great improvement, F.C.C. R.H.S. , extra strong plants	10/6 1/-

frondosa , a strong growing form of the Bird's Eye Primrose , producing dainty lilac flowers, <i>May-June</i> , 6 in.; a gem for the rock-garden.....	8/- 9d.
† helodoxa , a noble plant, producing stout spikes 3 to 4 ft. high, surmounted with whorls of bright golden-yellow flowers, <i>May-July</i> ; it delights in damp, semi-shady situations; F.C.C. R.H.S.	10/6 1/-

PRIMULA, Hardy Alpine and Border Varieties—continued.

	per doz.	each.
heucherifolia, <i>see</i> New and Noteworthy Plants, page 4.....	—	4/6
† japonica hybrids, bearing whorls of handsome flowers, mostly in shades of crimson ; suitable for damp shady places, <i>May-June</i> , 2 ft.....	8/-	9d.
Jewel, a beautiful hybrid of <i>Primula juliae</i> and <i>P. acaulis</i> , of dwarf compact habit, having large flowers of a beautiful ruby-purple with a striking small yellow eye, and small dark olive-green foliage ; free blooming, <i>April-May</i> , 6 in., A.M. R.H.S.....	8/-	9d.
Juliae, brilliant ruby-red flowers, freely produced from close dwarf tufts of fresh green foliage ; a profuse bloomer, and a gem for carpeting the ground in shady places, <i>April-May</i> , 3 in., A.M. R.H.S.....	8/-	9d.
marginata, a beautiful Alpine species with silvery grey toothed foliage, and producing in <i>early spring</i> little heads of lilac flowers, 4 in.....	10/6	1/-
„ Linda Pope, <i>see</i> New and Noteworthy Plants, page 4.....	—	7/6
† Norah, a charming dwarf hybrid, covered with very large flowers of a rich royal-purple with yellow throat, large crinkled foliage, <i>April</i> , 3 in.....	10/6	1/-
† Pam, flowers ruby-crimson, of dwarf compact habit ; the brightest of the <i>Juliae</i> hybrids, <i>April-May</i> , 3 in.....	10/6	1/-
† pulverulenta, producing whorls of brilliant maroon-crimson flowers ; a handsome plant for damp shady positions, <i>May-June</i> , 2-3 ft., A.M. R.H.S.....	8/-	9d.
† pulverulenta “Bartley” Strain, flowers ranging from blush-pink to rose-pink, very beautiful, <i>May-June</i> , 3 ft.....	10/6	1/-
† Red Hugh, a fine garden hybrid with intense fiery red flowers, very handsome ; a good strong grower, <i>May</i> , 1 ft., A.M. R.H.S.....	10/6	1/-
† rosea grandiflora, flowers bright rose ; one of our most beautiful spring-flowering Primulas for damp shady positions, <i>March-May</i> , 8 in.....	8/-	9d.
† sikkimensis (<i>The Sikkim Cowslip</i>), soft clear yellow flowers, <i>May-June</i> , 1½ ft.....	8/-	9d.
Veitchii, brilliant purple flowers with rosy hue ; a hardy Chinese species, <i>May</i> , 1 ft....	8/-	9d.
viscosa The General (new), a beautiful hybrid of the <i>Auricula</i> type, with rich velvety crimson flowers with yellow eye, <i>April-May</i> , 6 in.....	21/-	2/-
Wanda, large crimson-purple flowers with yellow eye, <i>April-May</i> , 3 in.....	8/-	9d.
† Wardii, a pretty Chinese species bearing heads of soft lavender flowers, <i>June</i> , 1 ft....	10/6	1/-

PRIMULA Sieboldii—Hardy Japanese Primroses. A charming and decorative race of Primulas requiring light woodland conditions of partial shade and a cool leaf soil, under which conditions they increase vigorously, slight protection is desirable in very cold weather. The large rich green leaves are crinkled and scalloped and the upright stems bear a quantity of large brightly coloured flowers in *April* and *May*, 9 in. They also make splendid pot-plants for the cold greenhouse.

Beauty, large soft rose-crimson flowers with deeply cut petals.....	16/-	1/6
clarkiaeflora, rose-crimson with fringed edge.....	16/-	1/6
Croix de Malthe, pale violet with white star.....	16/-	1/6
rosea alba, French-grey flowers with lilac-pink reverse.....	16/-	1/6
rubra grandiflora, rose-crimson with white centre.....	16/-	1/6

PRUNELLA laciniata grandiflora, spikes of rich purple flowers, arising from tufts of dark green foliage ; an excellent carpeting plant of rapid growth, *June-Aug.*, 16 in.

PULMONARIA, showy spring-flowering plants for front of borders or the rock-garden.

azurea (<i>Blue Cowslip</i>), charming gentian-blue flowers, <i>March-April</i> , 6 in.....	8/-	9d.
rubra, flowers coral-red, <i>March-April</i> , 6 in.....	8/-	9d.
saccharata Mrs. Moon, having handsome green and white marbled foliage, and bright salmon-pink flowers shot blue, passing to purple, <i>Feb.-April</i> , 6 in.....	8/-	9d.

PYRETHRUM—Hardy Border Varieties.

Decorative border plants, producing from *June* onwards a great profusion of flowers which vary in colour from snow-white to the richest crimson. Pyrethrums succeed in any good ordinary garden soil, and if cut back after blooming, they will again flower in autumn, *ht.*, 2-3 ft. *Plant early in Autumn or in Spring.*

PYRETHRUM, SINGLE. 6 in 6 beautiful named varieties (*our own selection*), 4/-

Agnes, beautiful large bright rose-pink flowers.....	8/-	9d.
Aidenne, large bright rose flowers.....	8/-	9d.
Comet, deep glowing rose-crimson flowers with golden centre.....	8/-	9d.
Duchess of York, deep pink flowers, tall and of fine habit.....	10/6	1/-
Eileen May Robinson, bearing very large soft pink flowers, of fine substance ; the finest single pink Pyrethrum, A.M. R.H.S.....	8/-	9d.
Hamlet, a good bright pink variety, distinct.....	8/-	9d.
Harold Robinson, very large rich rose-crimson flowers borne on stiff stems, a very valuable cut flower, 3 ft.....	16/-	1/6

PYRETHRUM, Single—continued.

	per doz.	each.
James Kelway, well-formed rich velvety crimson-scarlet flowers, very showy	8/-	9d.
Langport Scarlet, flowers rich crimson-scarlet, very fine	10/6	1/-
Mrs. Bateman Brown, large rich rose-crimson flowers with golden centre.....	10/6	1/-
Standard, large rose-crimson flowers with conspicuous golden disc.....	8/-	9d.

**DOUBLE PYRETHEUMS.**

RAMONDIA pyrenaica (<i>Rosette-Mullein</i>), rosettes of dark green foliage from which rise dainty soft blue flowers with orange-yellow centre; one of the most beautiful Alpines for growing in shady crevices of the rock-garden, <i>May-June</i> , 4 in.	10/6	1/-
„ serbica Nathaliae , a lovely species from the Carpathian Mountains, producing flowers of rich violet shades with bright orange-coloured anthers, habit distinct from that of <i>pyrenaica</i> , 3 in.....	—	2/6
RANUNCULUS amplexicaulis , a beautiful Pyrenean buttercup with dwarf prostrate soft blue-grey foliage and snowy white Anemone-like flowers with yellow anthers, <i>April-June</i> , 6 in. (<i>See also Aquatics</i> , page 69).....	10/6	1/-
RAOULIA australis , a dainty carpeting and rock-plant with silvery grey foliage.....	8/-	9d.
RHEUM , producing large handsome palmate foliage, and stately towering flower spikes 6-7 ft. high, during <i>June-July</i> ; noble subjects for the water-side, subtropical or wild gardening and isolated positions.		
Mixed hybrids , flowers in many shades of colour, rose, crimson, white and scarlet, all with bold striking foliage..... <i>Clumps, according to size</i> , 1/6 to 3/6 each.	—	—

**ROMNEYA TRICHOCALEX.**

ROMNEYA trichocalyx (*The Giant White Bush Poppy of California*). We consider this an improvement on *R. Coulteri*, being a freer bloomer. It forms a handsome bush 4 ft. high with ornamental deeply cut glaucous foliage and a profusion of large snowy white flowers, with yellow stamens, measuring 4 to 5 inches in diameter, and of delicate perfume. The blooms open and last well in water. It should be planted in a warm well-drained loamy soil, and if slightly stony so much the better. Too rich a soil prevents free-flowering. The situation should be warm and sunny, but not unduly sheltered, *July-Aug*..... 27/6 2/6

ROSCÆA cautlioides, a pretty plant from *China*, producing soft yellow Orchid-like flowers; a charming rock-garden plant, *June*, 1 ft..... 16/- 1/6

„ **Humeana**, producing pretty mauve Orchid-like flowers in *June*, 1 ft..... — 3/6

ROSMARINUS officinalis (<i>Rosemary</i>), producing spikes of leafy grey and green aromatic foliage with clusters of pretty lilac flowers, 2½ ft., <i>April-May</i> , bushy plants	8/-	9d.
„ prostratus , of dwarf spreading habit and producing lilac flowers; suitable for dry sunny banks or the rock-garden, <i>April-May</i> , 6 in.....	10/6	1/-

RUDBECKIA GOLDEN GLOW.

RUDBECKIA (*Cone Flower*), handsome border per doz. each. plants, invaluable for cutting.

Autumn Glory, handsome flowers with large golden-yellow guard petals and prominent central cone, *Aug.-Oct.*, 6-8 ft. 8/- 9d.

Golden Glow, rich yellow double flowers, valued for cutting, *July-Sept.*, 6 ft., A.M. E.H.S. 8/- 9d.

purpurea. See *Echinacea purpurea*, p. 21.

speciosa (*syn. Newmanii*), flowers orange-yellow with black central disc, very showy and handsome, *July-Sept.*, 2 ft. 8/- 9d.

SALVIA (*Sage*), a handsome family of summer and autumn flowering plants.

azurea grandiflora (*syn. Pitcheri*), producing in late summer long racemes of clear blue flowers; a good plant for hot dry sunny situations, 4 ft. 10/6 1/-

patens, a very beautiful border plant, producing in late summer and autumn handsome spikes of large brilliant deep gentian-blue flowers, 3 ft.; the tubers require similar culture to that of the *Dahlia*. 8/- 9d.

turkestanica, a handsome bold-growing border plant, producing showy silvery white and lilac flower spikes with silvery pink bracts, *June-Sept.*, 5 ft. 8/- 9d.

virgata nemorosa, a handsome hardy plant, producing in great abundance long spikes of rich violet-blue flowers from early summer, 2 ft. If the flower spikes are cut half back in July, bloom can be maintained till autumn. This fine *Salvia* should be planted freely in all flower borders, alternated with *Nepeta* and *Artemisia stelleriana*. 8/- 9d.

SANGUINARIA canadensis (*Blood Root*), producing snow-white flowers with golden anthers and soft blue-grey foliage, *April-May*, 6 in.; a charming plant for shady positions, prefers a rather moist peaty soil. 12/6 1/3

SANTOLINA Chamæcyparissus (*syn. incana*), the *Lavender Cotton* or *Ground Cypress*, with silvery grey fragrant foliage, 1 ft. 8/- 9d.

SAPONARIA ocyroides *Taplow Beauty*, a large and improved form, producing trailing clusters of large beautiful pink flowers, *May-June*, 3 in. 10/6 1/-

SAXIFRAGAS (Rockfoil).

These dwarf-growing Alpines are valuable for the rock-garden, old walls, etc., or as edgings and masses in front of borders. They grow almost anywhere, either fully exposed to the sun or in partial shade.

12 in 12 distinct named Saxifragas from all Sections. 7/6

12 " 12 " " Encrusted Saxifragas 7/6

12 " 12 " " Mossy Saxifragas 7/-

12 " 12 " " Cushion Saxifragas 8/-

SECTION I.—ENCRUSTED SILVER SAXIFRAGAS.

These form charming silvery rosette-like tufts of foliage 2 inches in height and produce dainty sprays of bloom from *May* to *July*, varying from 6 to 18 inches in length. They are of easy culture, thriving best in full sun, and may be used as edgings for borders, etc. Their home is the rock garden, wedged in the crevices of rocks. All in this section like lime. per doz. each.

aizoon la graveana, close-growing tufts of silvery rosettes and white flowers, 6 in. 10/6 1/-

" **lutea**, primrose-yellow flowers, a lovely variety, 6 in. 8/- 9d.

" **major**, having long sprays of white flowers, 6 in. 10/6 1/-

" **pectinata**, producing long sprays of white flowers, 6 in. 8/- 9d.

" **Sturmiana**, very close growing small rosettes of neat silvery foliage and elegant spikes of white flowers, 6 in. 8/- 9d.

cochlearis major, producing spikes of snow-white flowers, 1 ft., *extra fine*. 8/- 9d.

" **minor**, forming dense cushions of small silver-edged rosettes from which rise sprays of snowy white blossoms on dainty red stems, 4 in. 8/- 9d.

crustata splendens, forming charming silvery rosettes, flowers snow-white, 9 in. 10/6 1/-

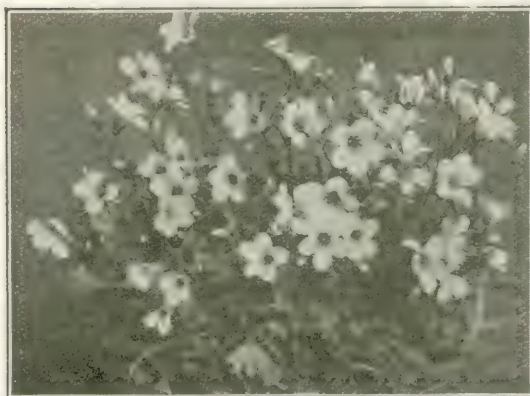

Kolenatiana, flowers pink, *May*, 9 in., very fine. 10/6 1/-

lantoscana superba, long graceful spikes of snowy white flowers produced from silvery rosettes, handsome, *May-June*, 1 ft. 8/- 9d.

lingulata Albertii, producing large spreading silvery rosettes with handsome spikes of snowy white flowers, 1 ft. 8/- 9d.

longifolia (*true*), the *Queen of Saxifragas*, having snowy white plumes 1½ ft. in length, rising from large handsome silvery rosettes; a lovely plant for crevices of rocks. 16/- 1/6

Macnabiana, a very beautiful hybrid raised in the Royal Botanic Gardens, Edinburgh, producing spikes of large white flowers prettily spotted red, 2 ft. 10/6 1/-

SECTION II.—MOSSY SAXIFRAGAS (*Dovedale Moss or Eve's Cushion*).**MOSSY SAXIFRAGA.**

These Mossy Saxifragas are all rapid growers, forming carpets of soft moss-like foliage of a bright green colour throughout winter and summer. They produce from the end of *April* to *June* dainty spikes of white, rose, or crimson-coloured flowers borne on slender wiry stems 4 to 9 in. high. All are excellent subjects for carpeting spring bulbs, especially the dwarfer kinds. They will thrive in partial shade.

per doz. each.

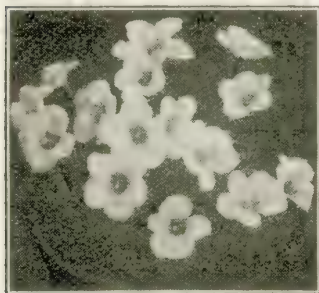

Crimson King , very deep blood - crimson flowers and stems, 7 in.....	8/-	9d.
decipiens alba grandiflora , large white flowers, bold and showy, 5 in.....	8/-	9d.
decipiens rubra grandiflora (<i>syn. Bathoniensis</i>), glowing crimson, 7 in., A.M. R.H.S.	8/-	9d.
Enchantress , having beautiful pale pink flowers and soft green mossy foliage, 7 in.....	8/-	9d.
Guildford Seedling , glowing crimson flowers, of very dwarf compact habit, 3 in.....	8/-	9d.
hypnoides densa , dense cushions of fresh green foliage and white flowers; very suitable for carpeting, 4 in.....	8/-	9d.
Juliet , flowers bright rose-crimson, of very compact habit, 4 in.....	8/-	9d.
muscoïdes atro-purpurea , masses of small deep rose flowers, very free and showy, 4 in..	8/-	9d.
Pompadour , a new mossy variety of very dwarf compact growth, studded with large deep crimson flowers borne on dark-coloured stems, 6 in., A.M. R.H.S.	10/6	1/-
Rosy Dawn , rose-pink, of compact dwarf habit, 4 in., <i>extra fine</i>	8/-	9d.
sanguinea superba , producing rich crimson flowers and fresh green mossy foliage, 4 in...	8/-	9d.
S. T. Wright , flowers soft creamy yellow, very distinct, 6 in.....	8/-	9d.
Taplow Pink , beautiful large rose-pink flowers and fresh green foliage, 6 in.	10/6	1/-
<i>"</i> Rose , very beautiful full bright rose flowers, plants of compact habit, 3 in.....	8/-	9d.
Wallacei , beautiful large white fragrant flowers, 8 in.....	8/-	9d.
Wenlock Best of All , flowers of a beautiful soft pink, 8 in.....	8/-	9d.

SECTION III.—CUSHION SAXIFRAGAS (*Winter-flowering*).

These **Cushion Saxifragas** form dense hillocks of close foliage, from which rise dainty white or yellow flowers during *Jan.*, *Feb.* and *March*; they are among the earliest flowers of spring.

per doz. each.

apiculata , having emerald-green cushions of foliage and clusters of primrose-yellow flowers, <i>Feb.</i> , 4 in., F.C.C. R.H.S.....	8/-	9d.
Boryi , white flowers with golden anthers, <i>April</i> , 2 in.....	10/6	1/-

**SAXIFRAGA BURSERIANA SPECIOSA.**

Burseriana magnifica , very beautiful large snowy white flowers, <i>Jan.-Feb.</i> , 3 in.....	10/6	1/-
<i>"</i> speciosa , flowers snow-white, a very free flowering early variety, <i>Jan.-Feb.</i> , 3 in...	16/-	1/6
<i>"</i> sulphurea , producing large showy pale yellow flowers on dainty red stems, <i>Jan.-Feb.</i> , 3 in., <i>extra fine</i> , A.M. R.H.S....	16/-	1/6
Elizabethæ , a fine hybrid, with large sulphur-yellow flowers rising from neat green rosettes, <i>Feb.</i> 6 in. AWARD OF GARDEN MERIT, R.H.S.....	8/-	9d.
Faldonside , the finest of the early-flowering cushion Saxifragas, producing large open pure yellow flowers with broad overlapping petals, <i>February</i> to <i>March</i> , 3 in., A.M. R.H.S.....	18/6	1/9
Grisebachii , handsome rosettes of silver leaves and curious spikes of crimson flowers, <i>March-April</i> , 6 in.	27/6	2/6
Haagii , bright yellow, <i>Jan.-Feb.</i> , 3 in.; one of the earliest and showiest of winter-flowering Alpines.....	8/-	9d.
Irvingi , dainty shell-pink flowers, produced from dense cushions of foliage, <i>Feb.</i> , 3 in.; a beautiful garden hybrid, A.M. R.H.S.....	10/6	1/-
Jenkinsii , pretty pale flesh-pink flowers with crimson eye, <i>Feb.-March</i> , 3 in., A.M. R.H.S....	16/-	1/6

SAXIFRAGAS—Section III.—Cushion Saxifragas—continued.		per doz. each.
L. G. Godseff, bright yellow flowers, <i>Feb.-March</i> , 3 in.....		8/- 9d.
Obristii, producing from silvery grey cushions of foliage very large white flowers borne on red stems, <i>March</i> , 2 in.....	10/6	1/-
Paulinæ, having grey-green foliage and soft yellow flowers, <i>Feb.</i> , 3 in.....	10/6	1/-
Petraschii, forming a dense silvery cushion studded with large snowy white flowers borne on red stems, <i>March</i> , 3 in., A.M. R.H.S.....	10/6	1/-
pungens, beautiful large clear yellow flowers, <i>March</i> , 3 in.....	10/6	1/-
Riverslea, a charming new Cushion Saxifrage, producing from dense silvery hillocks of foliage pretty rose flowers with crimson throat, <i>Feb.-Mar.</i> , 3 in., A.M. R.H.S.....	16/-	1/6
sancta, golden flowers and emerald-green foliage in <i>March</i> , 3 in.; it likes sun and lime.....	8/-	9d.

SECTION IV.—VARIOUS DISTINCT AND BEAUTIFUL SAXIFRAGAS.

granulata fl. pl. (<i>Double Meadow Saxifrage</i>), bearing beautiful double white flowers, <i>April-May</i> , 9 in., shade loving.....	10/6	1/-
oppositifolia alba, producing sheets of pure white flowers and Thyme-like foliage, <i>March-April</i> , 4 in.....	8/-	9d.
„ grandiflora, producing masses of glowing crimson flowers, larger than the type, <i>March-April</i> , 4 in.....	8/-	9d.
peltata (<i>Giant Californian Saxifrage</i>), a handsome plant for damp situations, having large handsome foliage and pink flowers in <i>spring</i> , 2-3 ft.....	10/6	1/-
umbrosa (<i>London Pride</i>), flowers white and pink, <i>May-July</i> , 1 ft.; a valuable and favourite plant, thriving in town gardens and everywhere, either in shade or sun.....	5/6	6d.

SECTION V.

GIANT-FLOWERED and LARGE-LEAVED SAXIFRAGAS (MEGASEA).

The following are handsome border plants, with large bold evergreen foliage which turns to beautiful red and bronze hues in winter. Invaluable for winter effect in borders, shrubberies, etc.

	per doz. each.
crassifolia, flowers rosy pink produced during <i>early March</i> , handsome reddish bronze foliage in winter, 1 ft.....	8/- 9d.
purpurea, producing large panicles of rich crimson flowers and large handsome evergreen foliage turning to a crimson-bronze shade in winter, very valuable for winter decoration in shrubberies or borders, <i>April-May</i> , 2 ft.....	8/- 9d.
speciosa, distinct evergreen foliage and pink flowers, <i>Feb.-March</i> , 1 ft.....	8/- 9d.
SCABIOSA caucasica (<i>Pincushion-flower</i>), a handsome border plant producing continuously from <i>summer</i> to <i>late autumn</i> lovely heads of soft lilac-blue flowers, very valuable for cutting, often providing flowers until late November, 2-3 ft. <i>On heavy soils we advise early Autumn or Spring planting only</i>	8/- 9d.
caucasica alba, bearing heads of beautiful white flowers, <i>summer</i> , 2-3 ft.	10/6 1/-
„ Goldingensis, a very fine improved strain of <i>S. caucasica</i> , producing a succession of immense flowers 3½ in. across of a charming lavender-blue, <i>July-Oct.</i> , 3 ft.; very valuable for cutting, A.M. R.H.S.....	16/- 1/6

SCHIZOSTYLIS MRS. HEGARTY.

lutea gigantea, a fine border plant bearing heads of primrose-coloured flowers from *July* to *Sept.*; valuable for cutting, 6 ft.....

8/- 9d.

Pterocephala (*syn. parnassi*), forming spreading tufts of grey foliage studded throughout *summer* and *autumn* with pretty mauve-purple flowers, 6 in.

8/- 9d.

SCHIZOSTYLIS coccinea (*The Caffre Lily or Crimson Flag*), a valuable hardy Cape plant, producing during *autumn* spikes of showy crimson-scarlet flowers which are valuable for cutting; it delights in a slightly sheltered but sunny situation, and is moisture loving, 1½ ft. It is also an excellent pot-plant.....per 100, 25/-

3/6 4d.

Mrs. Hegarty (*The Pink Caffre Lily*), producing beautiful satiny rose-pink flowers; requires the same culture as *S. coccinea*. Invaluable as a pot plant for autumn decoration indoors, 3 ft., A.M. R.H.S.....per 100, 42/-

5/6 6d.

SCIRPUS. See Aquatics, page 69.

SILENE—continued.

	per doz.	each.
<i>maritima</i> fl. pl. (Double-flowered Witch's Thimble), producing large double white flowers throughout summer, of prostrate habit, 6 in.; excellent for walls....	8/-	9d.
„ <i>rosea</i> , flowers blush-pink with large inflated calyx, May-June, 6 in.....	8/-	9d.
<i>Saxifraga</i> , producing white flowers resembling a miniature single pink, and close dwarf grass-like spreading foliage, Aug., 6 in.....	8/-	9d.
<i>Schafta</i> , flowers bright rose, a useful late flowering rock-plant, July-Oct., 4 in.....	8/-	9d.
SISYRINCHIUM anceps (Blue-eyed Susan), producing dainty blue flowers, May-July, 6 in.; a gem for crevices of stone paths, and in the rock garden.....	10/6	1/-
grandiflorum (Purple Snowdrop), producing graceful stems, crowned with rich purple bell-shaped flowers; it succeeds best in a somewhat shady situation, April, 1 ft....	10/6	1/-
SOLDANELLA alpina (Blue Moonwort), a lovely high Alpine, bearing numerous small pendent blue flowers, bell-shaped and daintily fringed, April-May, 4 in.....	10/6	1/-
SOLIDAGO (Golden Rod), equally suitable for the flower border, wild garden, or waterside.		
<i>canadensis nana</i> (Dwarf Golden Rod), a compact dwarf grower, crowned with neat flat heads of rich golden flowers, Aug.-Sept., 2½ ft.....	8/-	9d.
Golden Wings , the finest of the Golden Rods, producing a shower of gracefully arched sprays of golden flowers on stiff erect stems, Aug.-Sept., 6 ft., A.M. R.H.S....	8/-	9d.
SOLOMON'S SEAL. See <i>Polygonatum</i> , page 55.		
SPARTIUM junceum (Golden Summer-flowering Rush-leaved Broom), excellent for back of flower borders, etc., 8-10 ft., in bloom from June to October.....	16/-	1/6

SPIRÆA HYBRID.

SPIRÆA AND ASTILBE HYBRIDS

(Meadow Sweet), handsome perennials, producing graceful plumes of flowers from June to August, equally suitable for moist situations in the flower border or for the waterside. Those marked † are also valuable for forcing for indoor decoration, when so grown abundance of water at the roots is necessary and the pots should therefore be stood in saucers of water.

† <i>astilboides</i> , producing dense plumes of snowy white flowers, 2 ft.....	10/6	1/-
† <i>Ceres</i> , bushy heads of pretty silvery pink flowers, 3 ft., A.M. R.H.S.....	12/6	1/3
Filipendula flore-pleno (Double-flowered Dropwort), bearing corymbs of double white flowers, June-Aug., 1½ ft.....	8/-	9d.
† <i>Granat</i> , a very fine new Astilbe with rich crimson flowers, 3 ft., very striking.....	16/-	1/6
† <i>grandis rosea magnifica</i> , a beautiful variety of vigorous habit, producing plumes of pink flowers, 4 ft.....	16/-	1/6
† <i>japonica</i> , spikes of white flowers, 2 ft.....	10/6	1/-
† <i>japonica compacta multiflora</i> , handsome large spikes of white flowers, 1½ ft.....	10/6	1/-
<i>kamtschatica</i> (syn. <i>gigantea</i>) <i>rosea</i> , of stately growth, with immense plumes of feathery blush-pink flowers; good for water-side, July, 6 ft.....	10/6	1/-
† <i>Kreimhilde</i> , producing plumes of pretty lilac-rose flowers, 3 ft.....	12/6	1/3
<i>lobata magnifica</i> , a handsome variety of the "Queen of the Prairie" <i>Spiræa</i> , of stately habit with large handsome foliage, and bearing heads of beautiful bright rose-pink flowers, July, 5-6 ft., A.M. R.H.S.....	10/6	1/-
† <i>palmata</i> (syn. <i>digitata</i>), plumes of bright crimson flowers, June-Aug., 2 ft.; valuable for forcing and a fine plant for waterside and flower border.....	16/-	1/6
† „ <i>elegans</i> , flowers pale pink, June-July, 3 ft.....	10/6	1/-
† <i>Peach Blossom</i> , graceful plumes of delicate flesh-rose flowers, beautiful, 3 ft.....	10/6	1/-
† <i>Queen Alexandra</i> , large plumes of light rose-coloured flowers, 3 ft.....	10/6	1/-
† <i>Rhineland</i> , fine handsome plumes of a rich rose-pink, 3 ft.....	16/-	1/6
† <i>Rose Perle</i> (syn. <i>Salmon Queen</i>), pretty salmon-pink flowers, 4 ft.....	12/6	1/3
† <i>Rubens</i> , fine plumes of deep pink flowers, free flowering, 3½ ft.....	12/6	1/3
† <i>Venus</i> , plumes of rich silvery rose-pink flowers, 4 ft., A.M. R.H.S.....	12/6	1/3
† <i>Walkure</i> , plumes of rose-coloured flowers, showy, 3 ft.....	16/-	1/6

For Shrubby *Spiræas*, see page 75.

STACHYS lanata (Lamb's Tongue), having silvery grey woolly foliage, and spikes of lavender-purple flowers, June-July, 1 ft.; a favourite old plant for edgings, etc.....	8/-	9d.
---	-----	-----

per doz. each.

STATICE (*Sea Lavender*), graceful border plants, producing from *July* to *Sept.* spreading panicles of flowers, valuable for drying for winter decoration.

Gmelini, a showy variety, with spreading panicles of violet-blue flowers and dark green prostrate foliage, 1½ ft. 10/6 1/-

incana nana, flowers white and pink; showy for borders or the rock garden, 1 ft. 10/6 1/-

latifolia (*The Great Sea Lavender*), producing panicles of lavender-blue flowers; a very decorative and favourite plant, 2½ ft. 8/- 9d.

Lavender (new), flowers rich lavender-blue, produced in fine spreading graceful panicles, *extra fine*, 3 ft., raised at our Nurseries. 16/- 1/6

STOKESIA cyanea præcox, a showy North American plant, bearing large blue Aster-like flowers in *late summer*, 1½ ft.; a good border and rock-plant. 10/6 1/-

SWEET WILLIAM Barr's **Perfection Auricula-flowered**, producing bold heads of large white flowers with broad bands of crimson, maroon, or crimson-purple, 1½ ft. 5/- 6d.

Pink Beauty, beautiful soft salmon-rose flowers, 1½ ft. per 100, 35/- 5/- 6d.

Scarlet Beauty, a most effective plant, intense rose-scarlet flowers, 1½ ft. per 100, 35/- 5/- 6d.

THALICTRUM (*Meadow Rue*.)

THALICTRUM.

angustifolium, branching heads of soft yellow flowers, with beautiful dark green foliage, 6 ft., *July*, a fine border plant. 10/6 1/-

aquilegifolium purpureum, a very handsome border plant with heads of rich mauve-purple flowers *June-July*, 3 ft. 10/6 1/-

Delavayi, a charming species with dainty pendent mauve-coloured flowers, borne on graceful wiry stems, *July*, 2½ ft. 16/- 1/6

diptercarpum, bearing panicles of graceful pendent rosy lavender flowers with conspicuous yellow anthers, *summer*, 5 ft.; A.M. B.S. 10/6 1/-

glaucum, having soft yellow flowers and handsome greyish foliage, *June-July*, 6 ft. 8/- 9d.

minus adiantifolium (*Maidenhair Thalictrum*), a charming dwarf plant for the rock garden, with small dainty foliage of a greyish blue hue and white flowers, 9 in. 10/6 1/-

THYMUS (*Thyme*). The charming **Mountain Thymes** (*lanuginosus* and *Serpyllum* varieties) make a perfect close fragrant carpet on hot dry sunny banks where grass is difficult to establish; they are a sheet of blossom in *June* and *July*. Excellent for carpeting spring-flowering bulbs, and charming in the rock-garden.

Broad-leaved (*Common Garden Thyme*), 6 in. 8/- 9d.

„ **Golden**, a golden variegated form, grow on poor ground, 6 in. 8/- 9d.

citridorus (*Lemon Thyme*), 6 in. 8/- 9d.

„ **aureus** (*Golden Lemon Thyme*), 6 in. 8/- 9d.

„ **argenteus** (*Silver Lemon Thyme*), 6 in. } To obtain good colouring these must be grown on poor ground; they often lose their variegation in winter. 8/- 9d.

erectus, rosy red flowers, very fragrant, of erect growth, *July-Aug.*, 1 ft. 8/- 9d.

ericæfolius, little heather-like bushes with golden-tinted foliage, sweetly scented, 3 in. 8/- 9d.

Herba-barona, a miniature shrubby species of trailing habit, with lilac flowers and having a strong perfume of Caraway seed; an excellent rock-plant, *July-Aug.* 8/- 9d.

lanuginosus (*Woolly-leaved Mountain Thyme*), mauve flowers, *July-Aug.*, 2 in. 8/- 9d.

micans, a fine dwarf shrubby species for the rock-garden, rosy purple flowers, 2 in. 8/- 9d.

nitidus, forms a charming little bush of greyish green foliage, covered with rosy mauve flowers, very attractive, *June*, 1 ft. 8/- 9d.

Serpyllum (*Wild Mountain Thyme*), creeping rosy purple Thyme of English Downs 8/- 9d.

„ **albus**, producing sheets of snowy white flowers; very effective. 8/- 9d.

„ **coccineus**, brilliant crimson, a lovely plant for sunny banks. 8/- 9d.

TIARELLA cordifolia (*Foam Flower*), producing clouds of dainty white flowers on light graceful stems, *April-May*, 8 in., a delightful rock-plant. 8/- 9d.

TRADESCANTIA (*Spiderwort*), old garden favourites for shady or sunny aspects, *June-Aug.*

virginica alba grandiflora, large white flowers, 1½ ft. 8/- 9d.

„ **cœrulea**, heads of flat open rich purple-blue flowers, 1 ft. 8/- 9d.

„ **cœrulea fl. pl.**, semi-double sky-blue flowers, a very pretty colour, 1 ft. 8/- 9d.

„ **delicata**, open flower heads of a pretty soft silvery lilac, 1½ ft. 8/- 9d.

„ **pallida**, flowers a beautiful Cambridge-blue, 1½ ft. 8/- 9d.

„ **Taplow Crimson** (new), producing double rich crimson-lake flowers, *June-Aug.*, 1½ ft., *extra fine*. 10/6 1/-

TRILLIUM GRANDIFLORUM.

TRILLIUM (*Wood Lily* or *Trinity Flower*), thriving in moist shady situations, where they make luxuriant foliage, and produce from *April* to *May* beautiful large flowers.

erectum (*syn. atro-purpureum*), star-shaped crimson-maroon flowers, handsome, 9 in. 16/- 1/6

grandiflorum (*Wake-Robin*), flowers snowy white, large and beautiful, 9 in. 10/6 1/-

ovatum, a beautiful little species, flowers opening white, gradually developing to pink and then to a red-purple; it should be given plenty of leaf soil.... 16/- 1/6

recurvatum, having pretty recurved maroon flowers and handsomely marked foliage, 9 in. 21/- 2/-

rivale, a dainty little species bearing delicate silvery white flowers lightly speckled mauve, *March*, 6 in. 18/6 1/9

TRILLIUM sessile californicum, producing large creamy white trumpet-shaped flowers and handsome foliage, strong grower, 15 in., F.C.C. R.H.S. 16/- 1/6

" " " **Snow Queen**, large handsome white flowers, 1 ft. 21/- 2/-

" " **rubrum**, large rich blood-crimson flowers, very handsome, 1 ft. 21/- 2/-

" **stylosum**, bright rose-pink flowers with recurving petals, 1 ft. 18/6 1/9

TRITOMA (*Torch Lily, Flame Flower, or Red Hot Poker*). See *Kniphofia*, page 40.

TROLLIUS FIRE GLOBE.

TROLLIUS (*Globe Flower*), showy border plants, producing from *May* to *July* handsome globe-shaped flowers; they thrive equally well in half shady or sunny situations, and are also charming subjects for planting by the water-side.

Empire Day, bearing large clear yellow globe-shaped flowers, with brilliant orange-scarlet stamens, *May-June*, 2½ ft. 27/6 2/6

europæus superbus, flowers soft yellow, 2½ ft., A.M. R.H.S. 8/- 9d.

Fire Globe, bright orange-yellow flowers, very fine, 2 ft. 16/- 1/6

Ledebourii, rich deep golden flowers with central bunch of lacinated petals and stamens, 3 ft. 16/- 1/6

Lichtball, very large globular golden-yellow flowers borne on stiff stems, 2 ft., A.M. R.H.S. 16/- 1/6

Orange Globe, large handsome rich orange-yellow flowers, 2 ft. 10/6 1/-

TROPÆOLUM speciosum. See *Climbers*, page 75.

TUNICA Saxifraga splendens, soft pink, a pretty rock and wall plant, *June-Sept.*, 6 in. 8/- 9d.

TYPHA (*Reed Mace*). See *Aquatics*, page 70.

VERBASCUM (*Mullein*), handsome border plants, producing stately spikes of flowers during *June* and *July*.

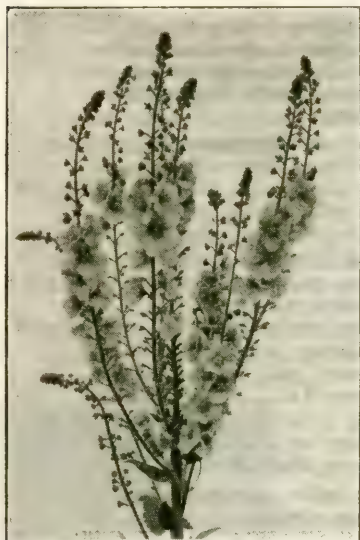

12 in 4 beautiful named varieties, 7/6

6 in 6 " " " " 4/-

Chaixii, canary-yellow with mauve centre, long handsome spikes of bloom; a first-class border plant and a noble subject for rousing on lawns, etc., 7 ft. 8/- 9d.

Cotswold Beauty, of elegant branching habit, bearing flowers of a charming biscuit shade with purple centre, *June*, 4 ft. 8/- 9d.

Cotswold Gem, large soft amber-coloured flowers with purple centre borne on long branching spikes, *June*, 4 ft. 8/- 9d.

VERBASCUM COTSWOLD QUEEN.

VERBASCUM—continued.

per doz. each.

Cotswold Queen, producing branched spikes of flowers of a beautiful crushed strawberry colour, very distinct, *June*, 4½ ft. 10/6 1/-

densiflorum, flowers rich golden-bronze with striking purple eye, very effective; *June-Oct.*, 4 ft. 8/- 9d.

Gainsborough, charming self primrose-yellow flowers, of elegant branching habit, 3 ft., *June-July* 16/- 1/6

Ivanhoe, large creamy buff flowers shot copper, with glaucous foliage, 4 ft. 16/- 1/6

Miss Willmott, pure white flowers over 2½ inches in diameter, hardy biennial, 5 ft. 8/- 9d.

VERBENA chamædrifolia, of trailing and spreading growth, producing a continuous supply of flowers of a dazzling scarlet from *May to Oct.*; an invaluable rock-plant or for sunny beds and borders, 3 in., A.M. R.H.S. 8/- 9d.

venosa, bearing rich violet-coloured flowers, continuous bloomer, *June-Oct.*, 1½ ft. 8/- 9d.

VERONICA (*Speedwell*), charming border, and rock plants.

Autumn Glory, a charming dwarf shrubby variety of compact habit, covered with rich violet flowers, *Aug.-Nov.*, 2 ft. 16/- 1/6

Balfouriana, a dwarf creeping shrubby variety with dark blue flowers; an excellent wall plant, *July-Aug.*, 2 in. 8/- 9d.

filifolia, producing miniature white and lavender flowers from a tuft of light graceful foliage, *May-June*, 9 in. 8/- 9d.

gentianoides fol. var., spikes of silvery lilac flowers veined blue, foliage variegated white, very attractive, *May*, 15 in. 8/- 9d.

incana, silvery grey foliage and rich violet-blue flowers, *June-Aug.*, 1½ ft., H.C. R.H.S., 1929. 8/- 9d.

longifolia, spikes of deep lavender-blue flowers, *July-Aug.*, 3½ ft., A.M. R.H.S. 8/- 9d.

„ **subsessilis**, rich violet-blue flowers, deep green foliage, *July-Sept.*, 3 ft. 10/6 1/-

repens, clothing the ground with a carpet of bright green foliage throughout the year, and in *spring* covered with pale blue flowers, 2 in.; valuable for the rock garden and for covering graves, etc. 8/- 9d.

spicata alba, having spikes of pure white flowers, *July-Sept.*, 1½ ft. 8/- 9d.

„ **Erica**, charming soft rose-pink flowers, resembling heather, *July*, 1½ ft. 8/- 9d.

„ **Royal Blue**, flowers gentian-blue, produced in great profusion, very showy, *June-July*, 1 ft., A.M. R.H.S., 1929. 10/6 1/-

taurica, a charming little species forming dark green tufts of foliage with gentian-blue flowers; a fine rock and wall plant, *May*, 3 in. 8/- 9d.

Teucrium dubia (*syn. prostrata and rupestris*), brilliant blue; a good plant for permanent edgings, etc., *May-June*, 6 in. 8/- 9d.

„ „ **rosea**, a charming rose-coloured variety of the above, 4 in. 8/- 9d.

„ „ **Trehane**, light blue flowers, golden-yellow foliage, 4 in. 8/- 9d.

True Blue, producing a cloud of the brightest of blue flowers, very showy, *June-July*, 1 ft., H.C. R.H.S., 1929. 8/- 9d.

VINCA (*Periwinkle*), for rough places in rock-gardens and for growing under trees, *June-Sept.*

major, producing large foliage and bright blue flowers, 9 in. 5/6 6d.

„ **elegantissima**, large handsome gold and green variegated foliage, 1 ft. 5/6 6d.

minor, small bright blue flowers, of trailing habit. 5/6 6d.

„ **azurea plena**, bearing pretty double blue flowers, of trailing habit. 8/- 9d.

VIOLAS, charming subjects for the rock and Alpine garden.

bosniaca, a charming little species bearing a profusion of rosy pink flowers, 4 in. 8/- 9d.

cornuta purpurea (*Horned Viola*), a continuous bloomer, with slaty blue flowers; an elegant and pretty species, *May-Aug.*, 6 in., A.M. R.H.S. 5/6 6d.

gracilis, a lovely species from Greece, of graceful trailing habit, flowers intense violet-blue, a charming rock-plant, *April-Aug.*, 4 in., A.M. R.H.S. 8/- 9d.

„ **lutea**, a charming yellow variety, *April-Aug.* 4 in. 8/- 9d.

VIOLAS—continued.

Huntercombe Purple, a hybrid of <i>V. gracilis</i> having large flowers of a rich purple, continuous bloomer, sweet-scented; a fine bedding and border plant, 4 in.....	per 100, 42/-	5/6	6d.
Jackanapes, lower petals bright golden-yellow, upper petals bright mahogany brown, very distinct and showy, <i>now rather scarce</i>		5/6	6d.

BEDDING VIOLAS.

VIOLAS (*Tufted or Bedding Pansies*). For Flower-beds, Borders, Edgings, etc.

The following is a selection of the best and freest-flowering bedding varieties; all are of good distinct clear colours, and sweetly scented.

Strong well-grown young plants.

Amy Barr, rosy purple flowers with lighter shading towards centre.....	per 100, 21/-	3/-	4d.
Archie Grant, indigo-blue, a favourite bedding variety.....	„ 21/-	3/-	4d.

WATER LILIES, see Nymphæas, pages 70 to 72.

YUCCA filamentosa (*Adam's Needle-and-Thread*), a stately plant for lawns, etc....each, 1/6 and 2/6

ZAUSCHNERIA californica (*Californian Fuchsia*), producing deep scarlet tubular flowers, Sept., 9 in. ; a handsome little plant for sunny walls or the rock garden.....per doz. 8/- each 9d.

HARDY ORNAMENTAL GRASSES, REEDS, ETC.

For planting by the side of Streams, Lakes, Ponds, etc., or grouping in Flower and Shrubbery Borders.

These hardy ornamental Grasses, etc., are invaluable as a background and for intermingling in the herbaceous flower border, where they impart a light and graceful effect. *Arundo*, *Elymus*, and the varieties of *Miscanthus*, will be found especially useful for grouping in association with such subjects as *Kniphofias*, *Montbretias*, etc. The beauty of *Iris* plantations is considerably enhanced by the addition of Ornamental Grasses and Reeds. each.

ARUNDO donax (*The Giant Provence Reed*), a giant reed attaining a height of 12 ft., suitable for sunny situations. Protect crowns during winter with a covering of long manure..... 1/6

CORTADERIA argentea (*syn. Gynierium argenteum*) (*Pampas Grass*), tall white plumes in Sept. and Oct., 6-9 ft.....1/6 and 2/6

„ „ *pumila*, a dwarfier variety with silvery white plumes, 4 ft.....1/6 and 2/6

DACTYLIS glomerata elegantissima (*Variegated Cock's-foot Grass*), a pretty dwarf silver and green variegated grass for permanent edgings, etc., 6 in.....per doz. 8/- 9d.

ELYMUS arenarius (*syn. glauca*) (*Blue Lyme Grass*), valuable for cutting to associate with flowers, also excellent for borders, 2 ft.....per doz. 8/- 9d.

EULALIA, see *Miscanthus* (*below*.)

FESTUCA glauca, a pretty dwarf bluish grey grass of erect habit, suitable for rock-gardens and dry situations, 9 in.....per doz. 8/- 9d.

GYNERIUM argenteum, see *Cortaderia* (*above*).

MISCANTHUS (*syn. Eulalia*) *gracillimus*, a charming Japanese Grass with plumes of purplish flowers in late summer, and having graceful, arching, narrow green foliage, valuable for cutting, 4-5 ft. ; a distinctive plant for flower borders, water-side, or for planting on lawns, etc.....per doz. 10/6 1/-

„ *japonicus zebrinus*, foliage green, marked crossways with yellow bars ; distinct and very effective, 5 ft.....per doz. 16/- 1/6

PHALARIS arundinacea variegata (*Golden-variegated Gardener's Garter*), a valuable variegated grass for cutting, or for flower borders, waterside, etc., 2½ ft.....per doz. 8/- 9d.

HARDY AQUATICS & MOISTURE-LOVING PLANTS.

For planting by the side of Streams, Lakes, Ponds, etc.

In addition to the Aquatics offered below, the following are also suitable for planting in damp situations and near to water, being moisture-loving plants :—*Aconitums*, *Artemisia lactiflora*, *Asters*, *Astilbe*, *Bocconia*, *Bupthalmum speciosum*, *Cardamine pratensis* fl. pl., *Chrysogonum*, *Cimicifuga*, *Dodecatheon*, *Epilobium*, *Ferns*, *Funkias*, *Gentians* in variety, *Gunnera*, *Helenium*, *Hemerocallis*, *Iris*es for waterside, *Liatris*, *Lobelia*, *Lychnis chalconica*, *Lysimachia*, *Lythrum*, *Malva*, *Mimulus*, *Miscanthus* (*see Grasses above*), *Monarda*, *Osmunda regalis* (*Royal Fern*), *Petasites*, *Phormium Colensoi*, *Physostegia speciosa*, *Primulas*, *Rheum*, *Saxifraga peltata*, *Senecio*, *Sidalcea candida*, *Solidago*, *Spiræas*, and *Trollius*. For prices and descriptions see body of Catalogue.

‡ Indicates plants that may be grown with the root-stock submerged in shallow water (6 inches or less), but with the leaves above water level. Most of them will also grow in boggy situations by the waterside.

§ Indicates floating aquatics not requiring any soil.

|| Indicates plants that may be grown in 1 foot of water. per doz. each.

‡ **ACORUS gramineus fol. var.** (*Miniature Sweet Flag* or *Myrtle Sedge*), with prettily variegated foliage, suitable for edges of small rock pools, 1 ft..... 10/6 1/-

|| **ALISMA Plantago** (*the Water Plantain*), a handsome aquatic for naturalising in 1 to 2 ft. of water, bearing on long stalks whorls of numerous small flesh-pink flowers, 2½ ft. 8/- 9d.

HARDY HYBRID WATER LILIES (NYMPHÆAS).

These Hybrid Hardy Water Lilies are of fascinating beauty. Their colours embrace the most vivid crimsons, the softest of pinks and roses, delicate creams, yellows and snowy whites, while some have charming blendings of more than one shade; in many cases their beauty is enhanced by prominent golden stamens, while others are fully double and resemble giant roses.

The introduction of these beautiful Hardy Water Lilies into the Rock or Herbaceous

garden is strongly recommended, and can be easily arranged for even in small gardens, by sinking wooden tubs into the ground. These should be thoroughly well pitched inside and out to make them water-tight and preserve the wood; tar must not be used, as the gases it throws off are detrimental to plant life. The smaller growing varieties marked * should be used, planted in 6 to 9 inches of good fibrous loam. A series of these sunk tubs along the foot of the rock-garden or in front of the herbaceous border produces a charming effect, especially if the tubs of Nymphaeas are alternated with *Reeds*, *Butomus umbellatus* (*Flowering Rush*), *Scirpus*, *Typha*, *Ranunculus Lingua*, and *Sagittaria*, while *Japanese Primulas*, etc., may be grouped at the back and between the tubs. Another plan is to make concrete basins with an overflow or outlet at one side, so as to produce a gentle flow when adding fresh water; this should only be given when necessary, as a sudden change of temperature is apt to check growth.

NYMPHÆA TUBEROSA RICHARDSONII.

Culture, Method of Planting, etc.

These Hybrid Water Lilies have proved to be hardy, but where they are grown in tubs or small basins it is advisable to give some slight protection during very severe and prolonged frosty weather.

Situation.—Nymphaeas should be planted in full sun, and in still water. When grown in artificial basins, etc., it is a mistake to add fresh water frequently as it is apt to chill the plants, as Nymphaeas do not flower well until the water has been warmed by the sun. They strongly resent cold water from a spout or fountain jet falling upon the foliage, as this is apt to check growth.

When planted in streams and rivers, basins or creeks, they should be protected from any rush of water which might otherwise tear or damage the leaves or even wash away the plants.

Soil.—Any kind of soil such as is found at the bottom of lakes will suit the NYMPHÆA, but where a soil has to be provided, we recommend good fibrous loam with the addition of 1 part in four of well-decayed stable or cow manure and old leaf-soil. A depth of 9 to 12 in. of good soil is sufficient, which should be firmly rammed when planting.

Depth to Plant.—A depth of 1 to 2 ft. of water above the crowns when established is sufficient for most kinds of Water Lilies. The leaves of newly planted Nymphaeas must be allowed to float, more water being added as growth proceeds; failures are frequently caused by starting the plants at too great a depth; if the depth of water cannot be controlled the plants should be started in boxes in shallow water and transferred later to their permanent quarters when sufficient leaf growth has been made. For the less rampant growers, such as those marked † and *, 9 to 18 in. of water above the crowns is quite sufficient, while the stronger growers, such as varieties of *N. Marliacea*, *N. alba*, etc., are best grown in a depth of 2 to 4 ft. of water above the crowns. We have seen the stronger-growing Nymphaeas, when established, flourishing in a depth of 4 to 5 ft. of water.

Distance apart to Plant.—The strong growing varieties should be planted about 6 ft. apart, the medium growers marked † about 4 ft., and the small growing varieties marked * 2 ft. apart.

Method of Planting.—In lakes or ponds over 2 ft. deep, raised mounds or open brick structures should be built up so as to bring the roots within the required depth, or plant in baskets and sink where required. Except when previously planted in baskets, place a sod of good fibrous loam over the roots, leaving only the crown exposed; this will keep them in position until established.

NYMPHÆAS (Hardy Hybrid Water Lilies)—*continued.*

☞ We supply suitable baskets for planting Water Lilies in at 1/6 each, or will plant them in a suitable mixture of loam and manure ready for sinking at an inclusive charge of 3/- each; the plants in such cases, however, must be sent by passenger train to ensure quick transit, and the cost of carriage is frequently so high that customers may find it better to have the Water Lilies by parcel post and the baskets and soil mixture (if required) sent by goods train separately.

Time of Planting.—The best time to plant Nymphæas is from late in April to the end of May. Orders are booked for delivery during this period.

Varieties to Plant.—Care should be taken in selecting suitable sorts for small basins, as some kinds, such as the *N. Marliacea* varieties, make too strong a growth for this purpose. A study of the marks against the varieties offered will be found of great value in selecting. The varieties of *N. odorata* and *tuberosa* are natives of America, and flower best in warm sunny districts.

Confervoid Growth in Tanks and Ponds.—This objectionable slimy green growth, which many people are troubled with in their tanks and ponds during spells of hot dry weather, can be got rid of, without injury to plants or fish, by the introduction of copper sulphate crystals placed in a coarse bag and drawn to and fro across the pond. The quantity should be at the rate of 2½ ozs. to 10,000 gallons of water. To estimate the bulk of water multiply together the average breadth and length and the result by the average depth, all expressed in feet; then multiply this by 6½, the final result being number of gallons. If the first application does not suffice, repeat in a week or ten days.

* Indicates small growing varieties suitable for tubs or small tanks (see page 70).

† Indicates varieties of medium size which will flourish in from 12 to 18 in. of water.

Those not marked as above are larger growing varieties which should be planted where there will be 2 ft. of water above their crowns and should be given sufficient room for ample leaf growth.

alba (*The Large White Water Lily*), the gem of our native aquatics; it may be planted at a greater each. depth than the other varieties if required..... 2/6

atro-purpurea, flowers intense crimson with golden anthers, foliage a dark purplish shade..... 12/6

Attraction, deep garnet-red flowers flaked rose on outer petals, the sepals are flesh-coloured streaked garnet, and the anthers scarlet and gold, very handsome..... 21/-

† *candida*, medium-sized pure white flowers and light green foliage, very suitable for tubs or small tanks; native of Bohemia..... 5/-

colossea, large flesh-coloured sweet-scented flowers; a strong grower for deep water, A.M. R.H.S. 5/6

† *Ellisiana*, flowers brilliant rosy-red with bright orange-coloured stamens, A.M. R.H.S. 8/6

Escarboucle, handsome flowers of immense size, brilliant vermilion-red with deep vermilion stamens, one of the finest Nymphæas, A.M. R.H.S. 15/-

formosa, large rose-pink flowers with pink sepals and golden anthers, A.M. R.H.S. 8/6

† *Freobeli*, medium sized flowers, beautiful rose-crimson, sweet-scented and of easy culture..... 7/6

Gladstoniana, a strong-growing variety producing enormous snowy white flowers with conspicuous golden anthers, early flowering; it should not be cramped for space..... 5/6

† *Graziella*, orange-red slightly streaked green, orange-coloured stamens, foliage marbled brown 6/6

† *Indiana*, a very fine variety, the flowers open bright orange-red and gradually pass to rich copper-red..... 12/6

James Brydon, flowers of perfect globular form and large size, colour a beautiful soft rosy red; medium strong grower and very free bloomer, A.M. R.H.S. 8/6

† *Laydekeri fulgens*, rich bright rose-crimson flowers with orange stamens..... 8/6

* „ *purpurata*, flowers flesh heavily mottled and deepening to crimson towards centre, stamens orange-red, a telling colour..... 7/6

Marliacea albida, producing neat ivory-white flowers with golden stamens, a strong grower and profuse bloomer, F.C.C. R.H.S. 6/-

„ *carnea*, very large vanilla-scented flowers, of a delicate soft flesh shading to white with golden stamens; a strong grower and free bloomer, A.M. R.H.S. 5/-

„ *chromatella*, flowers large and fragrant, primrose-yellow suffused rose with dark brown foliage; a strong grower and free bloomer, F.C.C. R.H.S. 6/6

„ *rosea*, large delicately scented flowers opening soft flesh-pink, changing to blush-white, and having yellow stamens; a strong grower and free bloomer, A.M. R.H.S. 3/6

Moorei, the finest yellow Water Lily, large soft clear yellow flowers, foliage marbled brown, sturdy grower..... 10/6

Mrs. Richmond, very large globular flowers, inner petals pretty rose-pink, shading to flesh on outer petals, the foliage being of a distinct and charming pale green; a strong grower, and the best in its colour of the larger growing varieties, A.M. R.H.S. 15/-

Newton, large open star-shaped flowers of similar form to a Cactus Dahlia, outer petals flesh-rose, inner petals rosy vermilion with huge golden centre; the whole flower passes with age to rosy vermilion, very fine..... 12/6

NYMPHÆAS (Hardy Hybrid Water Lilies)— <i>continued</i> .		each.
† <i>odorata maxima</i> (<i>syn. gigantea</i>), the Rice Field Water Lily of North Carolina, handsome foliage and large pure white cup-shaped flowers with conspicuous golden centre, <i>very fine</i>		5/6

W. Doogue, a very fine strong growing variety remarkable for the beautiful globular shape and substance of its flowers which are very large and of a delicate blush-pink passing to white.....		9/6
† W. Falconer, the deepest coloured Nymphæa, having very deep blood-crimson flowers and bronze-coloured foliage, requires 1½ to 2 ft. of water, <i>unique in colour and very fine</i>		12/6

HARDY CLIMBERS AND ORNAMENTAL SHRUBS.

For Training on Walls, Balconies, Arches, Trellis-work, Pillars, Pergolas, Etc.

As a guide to our customers, where necessary, we indicate, after the descriptions, the most suitable positions for the various species:—*N.* = North aspect; *S.* = South aspect; *E.* = East aspect; *W.* = West aspect.

ABUTILON vitifolium , covered in <i>early summer</i> with large open soft blue flowers with a satiny lustre; one of the most beautiful of flowering shrubs, hardy in the South, where it attains a height of 6 to 8 feet; in cold districts it requires a sheltered, warm, sunny position.....	each.	2/6
AMPELOPSIS (<i>Virginian Creeper</i>), now included under <i>Vitis</i> . See page 75.		
BERBERIS Darwinii , one of the finest of flowering evergreens, covered in <i>early summer</i> with orange-yellow flowers.....		1/6
„ stenophylla , producing orange-yellow flowers <i>during summer</i> followed by purple berries, one of the most beautiful plants for making an impassable hedge, according to size 1/6 to		2/6
BIGNONIA . See <i>Tecoma</i> , page 75.		
BUDDLEIA . Handsome free-flowering shrubs for south walls, and the back of flower borders, shrubberies, etc. The <i>variabilis</i> varieties should be cut back early in spring to within 12 inches of the ground, as they bloom best on the same summer's growth. Aspect <i>S.</i> or <i>W.</i>		
globosa (<i>Orange-ball Tree</i>), growing to a ht. of 10-12 ft., very decorative in <i>early summer</i>		2/6
variabilis magnifica , having long dense racemes of heliotrope coloured, sweet-scented flowers from <i>summer</i> to <i>autumn</i> , foliage grey, very fine.....		2/6
„ Taplow Variety , long thin well-formed racemes of bright rose-lilac flowers, fragrant		2/6
„ Veitchianus , long thin sprays of deliciously scented dark lilac flowers, beautiful		2/6
CASSINIA fulvida (<i>syn. Diplopappus chrysophyllus</i>), the Golden Heath , a golden tinted evergreen shrub for rock gardens or borders, flowers white with Heath-like foliage, valuable for winter effect, 2-3 ft.....		2/-
CEANOTHUS (<i>Blue Bush</i>), beautiful on south walls, or grown in bush form.		
dentatus , dense clusters of small blue flowers and neat evergreen foliage, <i>S.</i> , <i>May-June</i>		3/6
Gloire de Versailles , producing large sprays of light blue flowers, <i>summer</i> to <i>autumn</i> , <i>S.</i> , A.M. R.H.S.....		3/6
Veitchianus (<i>true</i>), having dark evergreen foliage and dense clusters of pretty bright blue flowers in <i>early summer</i> , <i>S.</i> , A.M. R.H.S.....		3/6
CHOISYA ternata (<i>Mexican Orange-Flower</i>), covered in <i>early summer</i> with clusters of deliciously fragrant white flowers; a beautiful evergreen wall shrub, <i>S.</i> or <i>W.</i>		2/6
CLEMATIS (<i>Climbing Varieties</i>). These beautiful hardy Climbers are indispensable for walls, trellis-work, arches, festoons, or for training on poles, etc., while on rockwork, or rambling over the stumps of old trees, they are very effective. <i>N.</i> or <i>S.</i>		

HARDY CLIMBERS AND ORNAMENTAL SHRUBS, Clematis—*continued*.

each.

CLEMATIS, Jackmanni Section.—The varieties offered in this section produce masses of single flowers of large size from *July to October*. February is the best month for pruning, and as the varieties in this section flower entirely on the young growths, the old wood should be cut well back to encourage a vigorous growth; the soil may with advantage be mulched with old manure and mortar rubble.

Comtesse de Bouchaud , flowers silvery pink, very free bloomer.....	3/6
Gipsy Queen , having bright rich velvety purple flowers, handsome	3/6
Jackmanni alba , pure white, very free.....	3/6
„ rubra , rich crimson flowers, very handsome and free-flowering	3/6
„ superba , an improvement on the type, producing large broad-petalled, rich purple flowers, handsome; excellent for North aspects.....	3/6
Madame Edouard André , a handsome and attractive variety bearing in abundance flowers of a velvety rosy claret.....	3/6
Mrs. Cholmondeley , lavender slightly tipped purple, a great favourite.....	3/6

CLEMATIS MRS. CHOLMONDELEY.

CLEMATIS, Lanuginosa Section.—The flowers in this section are large, handsome, and perfectly formed, produced in succession on short lateral shoots during *summer and autumn*. Pruning should be done during February, and consists in removing any straggling, weak or overcrowded growths.

Beauty of Worcester , flowers clear blue with white anthers.....	3/6
La Lorraine , a lovely mauve suffused pink, a distinct and charming colour, strong grower..	3/6
Lasurster , very large deep sky-blue flowers, the richest blue in this section, strong grower	3/6
Madame Le Coultre , a very fine large-flowered pure white variety	3/6
Mrs. Hope , we offer this as an improvement on lanuginosa type, very large flowers of a beautiful soft mauve	3/6
Nellie Moser , flowers shell-pink with rose-coloured bar running down petals.....	3/6
W. E. Gladstone , very large flowers of a beautiful pale silvery mauve, a nice cool colour; of good constitution.....	3/6
William Kennett , very large deep lavender flowers; of fine constitution.....	3/6

CLEMATIS, Viticella Section.—The varieties in this section are of vigorous growth, flowering in profusion during *summer and autumn*. The flowers are of medium size and produced in graceful clusters. For pruning notes see **Jackmanni Section**.

Madame Jules Correvon , medium sized flowers of a bright wine-red colour. We offer this as an improvement on Kermesina , being a better colour.....	3/6
Ville de Lyon , flowers vivid crimson, showy, A.M. R.H.S.....	3/6

CLEMATIS, Small-flowered Section.—The flowers of these range in size from that of a shilling to a half-crown piece. The varieties of *C. montana* are rapid, vigorous growers, and smothered in blossom during *May and June*. These flower on the old ripened wood, which should be trained in, removing all weak and unripened wood.

flamula (<i>Sweet-scented Virgin's Bower</i>), producing clusters of small pure white flowers, deliciously scented, Aug.-Sept.....	3/6
montana grandiflora , flowers white, the size of a shilling, produced in great profusion during <i>May</i> , S.; a creeper of rapid growth.....	3/6
„ rubens , charming rosy pink flowers, foliage shaded purple-bronze with silvery veining; a very free, rapid grower, S., F.C.C. R.H.S.....	3/6
vitalba (<i>Traveller's Joy</i>), our wild native Clematis; of rapid growth and valuable for quickly covering unsightly objects in the garden.....	2/6

COTONEASTER horizontalis , a handsome rock and low-wall shrub, with graceful arching foliage of a glistening green and bearing scarlet berries in <i>autumn</i> , S. or E., A.M. R.H.S...	2/-
microphylla , a very pretty evergreen shrub for walls or rock garden; it has small dark green box-like leaves and during <i>winter</i> is covered with velvety crimson berries, S. or E....	2/-
CRATÆGUS Pyracantha Lalandii , Laland's Scarlet-Berried Hawthorn, a handsome evergreen, covered from <i>autumn to spring</i> with clusters of showy scarlet berries, S. or E.....	3/6

HARDY CLIMBERS AND ORNAMENTAL SHRUBS—continued.

each.

- CYDONIA japonica** (*Japanese Quince*), charming subjects for walls, or if grown in bush form, for flower borders and large rock-gardens; they are covered from *March to May* with large brilliantly coloured apple blossom-like flowers, followed in autumn by large handsome fruit. North or South aspect.
- Aurora**, a lovely salmon-rose shade, 5 ft..... 3/6
- eburnea**, strong growing variety forming a bush 5 to 6 ft. high covered with scarlet flowers 3/6
- Maulei**, fiery terra-cotta, dwarf grower suitable for rock garden, 3 ft..... 3/6
- rubra grandiflora**, flowers scarlet-red, erect strong grower..... 3/6
- DAPHNE Mezereum**, a very charming shrub, the leafless branches being covered during *Jan. and Feb.* with red-purple flowers followed in *June* by cherry-coloured berries..... 2/6
- DIERVILLA** (*syn. Weigela*) **Abel Carrière**, producing rose-pink flowers, *very fine*..... 2/6
- „ **Eva Rathke**, flowers deep crimson, S. or W..... 2/6
- FABIANA imbricata**, a lovely evergreen flowering shrub with heath-like foliage and smothered during *May* with small white tubular flowers. It needs a warm position against a rock or wall, and is also a charming cold greenhouse plant, 3 ft..... 2/6
- FORSYTHIA intermedia**, bright golden flowers, very showy; a free bloomer of erect habit, good for walls or as a border shrub, *spring*.....according to size 1/6 and 2/6
- spectabilis**, the *finest of all*, producing large pendent golden flowers in great profusion, *spring*, A.M. R.H.S.....according to size 1/6 and 2/6
- suspensa** (*Japanese Golden Ball Tree*), a lovely hardy deciduous shrub, covered with pendent golden blossoms on wand-like stems, *Feb.-March*, 5-6 ft.....according to size 1/6 and 2/6
- vitellina**, stems clothed with dainty golden flowers in *spring*.....according to size 1/6 and 2/6
- FUCHSIA Riccartoni**, flowers bright scarlet; a variety grown largely as hedges and against walls in the south of England..... 1/6
- HEDERA** (*Ivy*). Strong plants in pots.
- canariensis** (*Irish Ivy*), the common large-leaved Ivy 2/-
- „ **aurea-maculata**, foliage green, blotched more or less pale yellow..... 2/-
- dentata variegata**, large gold and green foliage, very handsome..... 2/6
- marginata media**, large metallic silvery foliage with narrow silvery margin 2/-
- Russelliana**, stiff erect grower with green foliage, very distinct; valuable for low walls, pillars, buttresses, or rock-garden..... 3/6
- Willsiana**, foliage bronzy brown, large and handsome..... 2/-
- HELICHRYSUM rosmarinifolium** (*syn. Ozothamnus*) (*Snow in Summer*), a handsome evergreen covered in *late summer* with clusters of white flowers; excellent for sunny walls, etc., 2½ ft..... 2/6
- HONEYSUCKLES, see Lonicera.**
- IVY, see Hedera.**
- JAPONICA**, a popular name for *Cydonia japonica*, see above.
- JASMINUM fruticans**, a semi-evergreen shrubby species producing yellow flowers in *June*, 3 to 5 ft.: a good wall shrub..... 2/6
- nudiflorum** (*The Yellow Winter Jasmine*), a favourite old plant, W..... 2/6
- officinale**, producing in *summer* sweetly scented white flowers, S. or W..... 2/6
- „ **affine** (*Large-flowered Sweet-scented White Jasmine*), S. or W..... 2/6
- JUNIPERUS Sabina tamariscifolia** (*The Spanish Savin*), grey-green foliage, of prostrate habit, fine for the rock garden and to overhang low walls....plants according to size, 2/6 to 10/6
- LOGANBERRY**, producing luscious fruit, a rapid climber for fences, poles, etc.....1/6 & 2/6
- LONICERA** (*Honeysuckle*), best adapted for poles, arbours, or trellises; all are sun lovers.
- fragrantissima**, an evergreen winter-blooming species, flowers white and very sweet-scented; best treated as a bush..... 2/6
- gigantea superba**, producing extra large orange-yellow flowers, handsome..... 2/6
- japonica aureo-reticulata** (*Japanese Golden Variegated-leaved Honeysuckle*), a rapid-growing evergreen climber..... 2/6
- „ **brachypoda**, flowers sweetly scented, very rapid climber..... 2/6
- „ **Halliana**, flowers white changing to yellow, sweet-scented; a rapid grower..... 2/6
- Morrowi**, flowers cream passing to gold, a vigorous grower, sweet-scented..... 2/6
- nitida**, an attractive evergreen shrubby species from China, with small dark glossy green leaves; a very fine hedging shrub being of dense bushy habit and of rapid growth. according to size, 1/6 to 3/6
- Periclymenum belgica** (*Early Dutch Honeysuckle*), producing sweet-scented yellow flowers shaded rose, from *early summer*..... 2/6
- „ **pallida** (*Large-flowered Early Cream Woodbine Honeysuckle*) 3/6
- sempervirens** (*Scarlet Trumpet Honeysuckle*), suitable for warm sunny situations out of doors, or sunny retaining walls; a favourite climber for the cold greenhouse..... 3/6

CHOICE HARDY ROCK GARDEN BULBOUS SUBJECTS.

No Rock Garden is complete without the inclusion of little Alpine bulbous subjects such as those enumerated below. These will be found offered and fully described in our Autumn Bulb Lists (free upon application). We can strongly recommend these little Spring gems for outlining the rocks and stones.

<i>Anemone apennina</i> vars.	<i>Erythronium</i> , in var.	<i>Muscari</i> , in var.	<i>Narcissus triandrus</i> vars.
" <i>blanda</i> vars.	<i>Fritillaria</i> , in var.	<i>Narcissus Bulbocodium</i> vars.	<i>Oxalis floribunda.</i>
" <i>memorosa</i> vars.	<i>Galanthus</i> , in var.	" <i>cyclamineus.</i>	<i>Scillas</i> (dwarf species).
<i>Calochortus</i> , dwarf vars.	<i>Hyacinthus amethystinus.</i>	" <i>juncifolius.</i>	<i>Tulip Clusiana.</i>
<i>Chionodoxa</i> , in var.	<i>Iris</i> (dwarf bulbous species).	" <i>minimus.</i>	" <i>persica.</i>
<i>Crocus</i> species.	<i>Milla uniflora.</i>	" <i>nanus.</i>	" <i>other dwarf species.</i>
<i>Cyclamen</i> (hardy species).
